TERRIBLE BREAKING OUT

CURED BY CUTICURA

I was afflicted with a terrible breaking out. I was treated by the very best physicians, who pronounced it blood poison, but it got worse. I was suffering untold agony, and finally had to give up work. CUTICURA REMEDIES were suggested, which I immediately procured. From the first, I experienced a soothing relief, not withstanding my intense pain. I improved right along till at last *I was entirely cured, and not a sign on my body anywhere* indicating that anything had ever been the matter with me. M. B. BASTIEN, 156 W. GERMANY TO OPPOSE

Will Put Forth a Strong Hand at Manila.

Will Prevent Debarkation of American Troops.

German Consul Has Instructions From Berlin.

The United States Forces Must be Sufficient to Guarantee the Safety of Germans.

LONDON, June 15.—The Star today reiterates the story that Emperor William, of Germany, has ordered the German consul at Manila to oppose the debarkation of American troops unless in sufficient force to maintain order and protect the Germans. The Star adds that a notification to this effect has been officially given to the United States embassy at Berlin and to Secretary Day at Washington.

Admiral Deitrichs, according to the Star, has 2,400 troops and he could disembark 1,500 with two batteries of artillery, for the partial occupation of Manila.

Continuing, the Star says: "Germany is not likely to have taken such a grave step without securing the adhesion of other powers interested in the far east, namely Russia, Japan and England. They are certainly hostile to Germany's project, but it is not thought likely that they will raise objections and we may soon have very important news from Manila."

SPAIN NOW LOOKS TO RUSSIA FOR AID.

LONDON, June 15.—A special dispatch from Madrid published this afternoon, purports to give the substance of an interview with Senor Sagasta, the Spanish premier, who is quoted as saying that yesterday's rise on the bourse was due to telegrams advising leading financiers that Russia has taken steps to intervene shortly in the settlement of the Philippine question. The premier added, however, that personally he had no knowledge of such intervention.

GERMANY WILL NOT INTERVENE.

WASHINGTON, June 15.—The state department has been officially advised that reports that Germany would take an issue in the Philippines are unwarranted. German ships would be on hand at Manila to afford protection to German subjects and property but Germany had no thought of intervention.

THIRD EXPEDITION TO SAIL SATURDAY.

SAN FRANCISCO, June 15.—It is stated semi-officially at Camp Merritt that the third expedition for Manila will sail from this port on Saturday week, and that the expedition will be under the command of Brigadier General King.

The make-up of the expedition will, in all probability, consist of the two Idaho battalions, the Fifty-first Iowa regiment, remaining detachment of the corps of engineers, First Montana regiment, Seventh California regiment and the first Tennessee regiment.

STARVATION TAPS FOR ADMITTANCE.

(Copyright, 1898 by the Associated Press.)

OFF SANTIAGO DE CUBA, Saturday, June 11, 4 p. m., per the Associated Press dispatch boat Wanda, via. Kingston, Jamaica, Sunday, June 12, 7 p. m.—Rear Admiral Sampson and Commodore Schley, with their combined forces, are slowly but surely placing such a net work about Santiago de Cuba and are cutting off so effectually every source of outside aid, that within a short time starvation's tapping will give way to death's solid knock for admittance at the doors of the ill-fated place.

Within three days three separate sources of supplies and reinforcement have been cut off, and Santiago de Cuba is now isolated from the world and is now down to famine rations.

When Admiral Cervera arrived at Santiago de Cuba with his fleet the people there welcomed him for the relief they thought he would bring, but instead of food he brought them 600 more men to feed.

The only aid he had to offer was the tons of ammunition in his ships' magazines.

A map of the harbor furnished today by spies shows that, after the bombardment of the harbor forts by Commodore Schley on Tuesday, May 31, the Spanish cruiser Reina Mercedes, which was disabled was towed into the bay behind the Socapa battery, where she lies with two torpedo boats. Half a mile further up, under the lee of Cayo Smith and the mortar batteries, is the Vizcaya, commanding with her broadsides the two narrow entrances to the east and west of Cayo Smith. Half a mile north and at the gate of the third narrow entrance lies the Almirante Oquendo, and a half a mile to the northeast are the Cristobal Colon and the Maria Teresa.

The ships are about a mile and a half from the city proper, shallow water forbidding them to go much closer.

The sunken collier Merrimac is directly in the narrow part of the channel.

BRITISH STEAMER PRIZE AT KEY WEST.

KEY WEST, Fla., June 15.—The British steamer Twickenham, captured off Kingston on June 10 by the auxiliary cruiser St. Louis, arrived here today in charge of a prize crew. She has on board 3,000 tons of coal and one passenger who is supposed to be an employe of the Spanish government.

DIPLOMAT SHOT.

Count Arco-Valley, of the German Embassy, Injured.

In London a Stranger Fires Two Bullets at Him--Would-be Assassin Arrested.

LONDON, June 16.—While the first secretary of the German embassy here, Count von Arco-Valley, was emerging from the embassy this evening a stranger fired two shots from a revolver at him. One of the bullets entered the secretary's back, but the wound is not believed to be fatal.

His assailant was arrested after firing at and missing a policeman. The motive which prompted the man to attempt the life of Count Arco-Valley is not knows.

DEAL TRANSFERRED.

P. D. Armour Takes Possession of the Leiter Corner.

The Napoleon of the Grain Pit Turns Over His Holdings to the Big Elevator Man.

CHICAGO, June 15.—Arrangements for the closing of the Leiter deal have been completed. Final papers were placed before Joseph Leiter today, and 7,000,000 bushels of choice cash wheat were consigned to P. D. Armour, who will henceforth control all the Leiter holdings.

Armour has already begun to dispose of his holdings, and unless the coming crop is harvested sooner than anticipated it seems likely that the immense line of wheat in the northwest will be consumed.

It is stated that Leiter will not lose as much as generally believed. Armour's assumption of the burden is said to have meant at least $2,000,000 for Leiter. That much loss would be incurred if the immense line of wheat had to be merchandised by trustees, with the probability of a declining market. The loans made Leiter by the local banks aggregate nearly $7,000,000. Each bank was careful to protect itself with margins that would insure against loss. Interviews with a number of the bankers interested show that they are all satisfied with the transfer of the deal to Armour.

Another Attachment Against Leiter.

NEW YORK, June 15.—The sheriff has received another attachment against Joseph Leiter, of Chicago, in favor of Thames & Marsey Marine Insurance company for $81,915. The attachment was granted by Justice Daly of the supreme court.

CABINET RESIGNS.

Culmination of the Ministerial Crisis in France.

PARIS, June 15.—The cabinet met this morning and reviewed the situation. The ministers reassembled at 2:30 p. m., when M. Meline handed President Faure the resignation of the whole cabinet, which the president accepted, while requesting the ministers to continue the direction of affairs until their successors are named.

It is expected that M. Ribot, the former premier and minister of finance, will be invited to form a new ministry, and it is considered probable that M. Dupuy, who was premier of the cabinet which preceded that of M. Ribot, will join the new ministry.

Death of Mrs. Bulger.

At 10:30 this morning, at her home, No. 176 Griffith street, occurred the death of Mrs. Patrick Bulger, aged sixty years. Mrs. Bulger had been ailing for a long time and her death was not unexpected. She leaves, besides a husband, six children, viz: Charles J., of Hillsdale, Mich.; John H., George J., Ida E., Emma A. and Nellie M., of this city. Mrs. Bulger was the sister of the late John W. Ryan. She was a member of the Catholic church and of the Rosary Sodality of the Cathedral. The funeral arrangements have not been completed; they will be announced tomorrow.

The International Business college entertainment tonight will be the best one of the series. Prof. Wm. Heine, ventriloquist; Frederick Gresham, the favorite colored basso; Willis, the black Herrmann, and Mr. Armin, descriptive vocalist, with Rentfrow's Pathfinders last week at the Temple, will be the features.

Arthur, the nineteen-weeks-old child of Mr. and Mrs. Arthur Wieland, of No. 38 Watkins street, died this morning of brain fever. The funeral will occur Thursday morning at 10 o'clock.

CUBANS CO-OPERATE

Admiral Sampson Has Been Reinforced by Them.

Several Hundred Natives Now With Americans.

Town of Aserraderos Has Been Occupied.

United States Forces at Guantanamo in a Very Satisfactory Condition--Sampson's Report.

GUANTANAMO BAY, Tuesday, June 14.—6 p. m.—The American marines and Cubans today completely routed a force of 400 Spaniards. One American was slightly wounded. The Spaniards lost about forty killed.

SAN FRANCISCO, June 15.—The second fleet of transports weighed anchor about 1 o'clock and are now on their way to Manila.

WASHINGTON, D. C., June 15.—The navy department posted the following bulletin:

"Admiral Sampson reports that he has been reinforced by several hundred Cubans and that our forces at Guantanamo are in a very satisfactory condition. The town of Aserredaros has been occupied by the troops under General Rabi. The men under General Garcia are cooperating with the American forces."

TROOPS SAILED AT DAYLIGHT.

TAMPA, Fla., June 16.—The hospital steamship Olivette returned to Port Tampa last night remaining here until 1 o'clock, coaling and receiving her first touch of white paint, symbolic of her peaceful mission.

The warlike equipments of the correspondents on board were collected and put on another vessel, the rules not permitting arms on hospital ships. The Olivette, with the fleet, got away at daylight. The idea of stopping at Key West has been abandoned.

DEEDS OF DARING PERFORMED IN CUBA.

(Copyrighted, 1898, by the Associated Press.)

OFF SANTIAGO DE CUBA, Saturday, June 11, 4 P. M., via Kingston, Jamaica, Sunday, June 12, 7 P. M.—Since the establishment of the blockade several interesting and daring expeditions have been made in the enemy's country to discover the actual condition of affairs in Santiago de Cuba. It is not an easy matter to get near the city these days. About eight thousand Spanish soldiers and two thousand home guard troops cover every roadway about the place, and General Pando, the Spanish military commander, is very active, although his operations are limited by the mountains surrounding the place, which are full of insurgents.

On Saturday, a week ago, June 4, the converted lighthouse boat Suwanee, commanded by Lieutenant Commander Daniel Delehanty, arrived off Santiago de Cuba. She had on board about 70,000 rounds of ammunition, 5,000 rifles, 1,000 carbines, 2,000 machetes, and hundreds of pounds of bread, bacon and other provisions. With the aid of a Cuban pilot picked up by Commodore Schley, she landed this stuff in two days besides taking an active part in the bombardment of the forts at Santiago de Cuba.

The landing was effected about twelve miles to the westward of Santiago and in the presence of 500 insurgents. About 100 more insurgents were on guard in the mountains and in the passes. The ammunition and food, with the arms, have therefore put the insurgents in excellent shape to prevent the Spaniards from getting provisions from the outside through the island itself.

It is believed that the arming of a a force of insurgents has assisted in cutting off one part of the Spanish army from another.

Tuesday, June 7, while working near Cesserazere, twelve miles from Santiago de Cuba, Lieutenant Commander Delhanty saw two sloops trying to run away up the river Asserazero. He fired at them and they were run ashore and deserted.

Later a boat's crew from the Sauwanee captured them. Each of the sloops was provided with a Spanish flag and one of them had on board a heliograph for signalling purposes. The flag and the heliograph were taken as spoils of war. One of the sloops was presented to the Cubans, and the other, which already had a few holes in it, was sunk by shots from the Suawanee.

THE TEMERARIO OUT OF BUSINESS.

ASSUMPTION, Paraguay, June 15.—Via Galveston, Texas, June 15.—The commission appointed by the government of Paraguay, at the instance of the United States consul, to inquire into the exact condition of the Spanish torpedo boat Temerario, now in these waters, reports that it is impossible for her to put to sea. The commission also resolved not to place any limit upon the time in which she is to repair, ascertaining that portions of her machinery are wanting and must be shipped to her from abroad.

MARINES HOLD FORT AT GUANTANAMO BAY.

WASHINGTON, D. C., June 15.—With General Shafter's expedition on the way to Santiago and the military branch busily engaged in preparing the expedition to be sent against Porto Rico, there is now nothing to do for the navy but to wait patiently until the troops arrive at Santiago.

So far only one report has come from Sampson telling of engagements between the marines at Crest Heights and the Spanish troops in the chapparel and no mention has yet been made officially of any of the subsequent night attacks upon the marines.

In his dispatch of Monday night, Admiral Sampson spoke of the first affair as an attack upon the Americas outposts and the naval officers here feel that because he has made no further report that the subsequent engagements described by the press correspondents have been of the same character.

It is realized at the department that the situation of the marines is a very uncomfortable one, suffering as they are from harrassing night attacks that prevent them from securing much needed rest and unable because of the character of the country and the nature of the tactics adopted by the enemy from getting a fair chance at them.

However, the department is assured that there is no real danger in the situation, because if seriously threatened by an overwhelming force the marines with very short notice can retire aboard the American warships, where they would be in perfect safety. It is mainly sentiment, embodied in a determination to keep the American flag flying over the place where it was first planted, and thus retaining for the navy the honor of obtaining the first position on shore, that keeps the marines in camp in Guantanamo bay.

It is true, however, that an important secondary purpose will be served by their presence, as the place will afford a proper cable station when the French cable between Hayti and Santiago is spliced.

It is not impossible to operate a cable from a ship in the harbor, but the communication in such cases is precarious and undesirable.

Word has come to the navy department that the St. Paul has left Cape Haytien with operators and instruments for the cable and it will not be surprising if Sampson opens direct communication with the United States via Hayti at almost any moment. What threatened to be an international difficulty over the operation of the cable under such conditions has been removed and it is said that the French cable company owning the line has been most obliging in acceding to the request of our government.

Although Tampa dispatches said that the transport fleet was going to double Cape Antonio, the western extremity of Cuba, in proceeding to Santiago, the naval officials do not believe that is the case, for the reason that the western route is fully 200 miles longer than the route by way of Cape Maysi, and in addition the transports would have to fight the gulf stream until they had got clear around Cape Antonio.

On the eastern course the ships would have the full benefit of the favorable current until they reached Cape Maysi, about two-thirds of the distance to be traveled. It is believed here that the idea that the ships were westward bound grew out of the circumstance that they headed for the Tortugas, the point selected for the fleet of transports to pick up the heavier vessels on the convoy squadron, such as the Indiana, which has not been able to get within ten miles of Key West, because of the lack of water. The officials see no reason to change their original estimate that the troops will be off Santiago Friday.

DENIAL OF ORDER TO MOVE TROOPS.

WASHINGTON, June 15.—An authoritative statement at the war department today contradicts the reports from Chickamauga that 15,000 troops have been ordered to move at once. It is said that the orders sent to the commanding officers at Chickamauga direct the equipping and arming of the troops at the earliest possible moment. This, however, is in line with the general policy of hurrying up preparations all along the line. The order did not suggest any movement of 15,000 men. It may be naturally inferred that these orders to expedite the equipment will lead up to subsequent orders for the movement of the troops.

Such orders, however, are for the future to bring forth. In pursuance of the order to equip General Brooke sent a dispatch to the war department today, asking as to the whereabouts of ordnance stores essential for this equipment. The stores are on the way, and although there has been considerable delay, the officers believe this will be straightened out in a few days, and that the work of equipment will be carried out.

Mrs. Lillie Bickelhaupt and little daughter, Frieda, arrived here from Quincy, Ill., on an extended visit to Prof. and Mrs. H. R. Charles, of No. 185 Oakland street.

DEBATE GETS WARM

Newlands' Resolution Still Holds the House.

Annexation of the Sandwich Islands Discussed.

Moral Phases of the Question to the Fore.

Mr. Berry Declares There Is More Immorality in Washington Than in Honolulu.

WASHINGTON, June 15.—The house met today at 10 o'clock to resume the Hawaiian debate. Sixteen members were in attendance. The senate bills granting American register to the ships Specialist and Unionist were passed.

Mr. Fitzgerald, democrat, of Massachusetts, spoke against the Newlands resolution. In the course of his speech he emphacized the failure of the majority of Hawaiians to express their desire relative to annexation. He insisted that every people had the right to the government of their choice.

Speaking further, Mr. Fitzgerald opposed annexation on the grounds that an injurious labor element will be brought into competition with American laborers.

Supporting the resolution, Mr. Berry, democrat, of Kentucky, devoted much of his time to show that annexation was in line with democratic policy. He reviewed the territorial additions to the original, to show that practically all had been made by democrats. He quoted Jefferson, Pierce, Marcy, Buchanan, Bayard and other democrats to support his contention that democratic history warranted present democratic support of annexation.

Mr. Berry desired to speak of the Philippines situation and while not advocating the retention of the islands, he declared the United States should brook no interference upon the part of Germany as was intimated as being likely, and said if Germany should attempt to defeat any rights belonging to America, then this country with 158 ships in commission and 75,000,000 people would be ready to respond to the demands for resenting interference. Mr. Berry's remarks in this connection were applauded generally.

Proceeding he advocated the early construction of the Nicaragua canal, and added the importance of its control as an additional argument for annexation. During his speech he referred to the democratic caucus action and declared his independence of any attempt to control his action upon the pending question.

This brought several protests from democrats, denying that any such attempt had been made.

Another incident out of the ordinary occurred when in replying to a remark of Mr. Clark, democrat, of Missouri, relative to the national immoral dance of Hawaii and statesmen who had seen it, Mr. Berry said he had witnessed the dance while in Hawaii and more immoral performances could be seen nightly in Washington theaters. Later when Mr. Rhea, democrat, of Kentucky, was speaking upon Hawaiian immorality Mr. Berry interrupted to assert vigorously "there is more immorality in this city south of Pennsylvania avenue than in all Honolulu."

"Were I an American representative," responded Mr. Rhea, "and knew that to be true I would blush to say it."

Mr. Rhea argued chiefly the sin, idolatry and disease in Hawaii in opposition to the pending resolutions.

IN THE SENATE.

WASHINGTON, June 15.—After the transaction of some routine business today, the senate under a special order began the consideration of bills on the private pension calendar.

AT CAMP THOMAS.

The Battery Boys Do Not Expect Orders for Some Time.

A Correspondent Tells of Life in the Hospital--A Heavy Rain--Incidents of Camp Life.

THE SENTINEL is in receipt of the following from its correspondent at Camp Thomas:

HEADQUARTERS TWENTY-EIGHTH LIGHT BAT., IND. VOL.
CHICKAMAUGA PARK, GA.,
June 13, 1898.

Editor SENTINEL:

Your correspondent has just returned to company quarters after spending a week in the brigade hospital, which accounts for the absence of letters last week.

A week in an army hospital permits some interesting observations. During last week there was quite a variety of patients brought in. One of our men who had gone out with a crowd of soldiers to take a Sunday dinner at a country home, was taken suddenly ill and had to remain at the farm house until the next day when the ambulance wagon went out after him. He was up and back to his quarters within a day or two, however.

A member of the Ohio artillery was down at Lytle Station with a team of mules, and while loading up the wagon the mules started to run away. The driver ran and caught hold the reins and stopped the team, but the mule he had hold of raised up and struck him squarely on the chest just a little above the heart. The driver showed great pluck by still holding onto the lines until he had quieted the team, and some men who were standing by ran up and relieved him.

While there were no very serious accidents during the week, yet there was enough work to keep the corps pretty busy.

The treatment in the hospital is very good and the dread one has for being taken there soon vanishes after he is placed on a comfortable cot, with real springs on it and a real pillow on which to lay the head. In stomach and bowel troubles the patient is dieted on malted milk until he is strong enough to take solid food. The surgeon's tent is within speaking distance of the hospital tent and his services can be had at almost any hour. The hospital we have for our use is the brigade hospital. In cases of very serious illness the patient is removed to the large divisional hospital. At present there is only one of our men in the hospital, Andrew McMiller, who has had quite a long siege of it. At last reports he was improving nicely.

Last night saw many changes in the appearance of our camp quarters. We now have packed away in the rear of our tents four of the very latest model breech-loading 3.2 guns and four caissons, and on the pole of each is nicely laid the harness, placed in such position that each driver can pick up his own harness without any difficulty.

Every morning now, at the drill hour, each sergeant takes his section out and gives them a "school" on the mechanism and manapulation of the piece. From now on the drills will be more interesting, being the standing gun and the mounted drills. Up to this time the men have been drilled only in the foot movements, and the change of drill will be something entirely new to a large number of the boys.

Yesterday brought a blessing from above in the way of a heavy downpour of rain. A rain came up in the morning and laid the dust. Again in the afternoon about 3 o'clock it began raining, and kept it up until after 7 o'clock. It came down in torrents and flooded everything. Even some of the tents that that were apparently rain proof were full of water. Some of the soldiers had their bed ticks so thoroughly soaked that they could not sleep on them, but had to hustle around and provide something dry to lay on for the night. Some built raised platforms under the pieces and caissons, which were covered with large heavy canvasses, and slept in the open air, which after the rain was cool and refreshing.

This morning ticks were seen hanging on the lines drying in the sun and everything was on the cleaning up order. Everybody is well and no bad effects of the rain have materialized. The boys are not expecting an order to move for some time.

NOTES.

Corporal Charles C. Mungon is celebrating his birthday anniversary today and he says this is the first time he ever celebrated a birthday in time of war.

Corporal John F. Vordermark is assisting in the mail car at Lytle station whenever there is a rush.

A base ball game yesterday between Fort Wayne and St. Louis was stopped in the second inning on account of rain. The score was in favor of Fort Wayne, 5 to 0.

Sergeant Henry T. McNutt says he has no shadow of rheumatism, the rumor to the contrary notwithstanding.

Private Harry Edgar captured three large turtles one day last week and turned them over to the cook. He says that's the last he saw of them. Corporal William Briggemann says he knows where the shells are.

There will be a meeting tonight at the Ohio battery headquarters to discuss the forming of a field Y. M. C. A. Several associations are now in running order in different parts of the camp and all are well patronized.

Private William Bierbaum spends all his spare time writing letters home, and even wants more time for writing.

RACCOON AND DOG.

Desperate Fight Between Them in Lakeside.

Pioneer scenes were reproduced in Lakeside last evening. A large and fierce raccoon appeared in the yard surrounding the residence of Mr. and Mrs. C. M. Comparet, on Edgewater avenue, and gave battle to the large house dog. Hostilities continued for an hour, during which the dog and 'coon tumbled over each other, up one side of the dyke and down the other. Finally the combatants were separated by two ladies, who lassoed the 'coon and then drove the dog away. The raccoon is now confined in a store box. Where he came from, no one knows, but it is likely that he found his way up the river from the woods a mile or two east of the city. He is a very vicious fellow.

REUBEN S. PATTERSON

WILL GO TO TAMPA.

Fifteen Regiments Soon to Leave Camp Thomas.

Young Volunteers Anxious to See Service.

Not Known What Regiments Will Go South.

Most of the Regiments Are Now Thoroughly Equipped--Regulars and Volunteers Fight.

CHICKAMAUGA, National park, Ga., June 15.—The report that fifteen regiments are to leave Camp Thomas for Tampa during the next few days is the main subject of interest in the camp today, and it is being eagerly discussed by both officers and men.

It is impossible to confirm the report as the army officials refuse to discuss it but nearly every man in camp now believes it.

When the news of a move gained circulation there was general rejoicing among the soldiers. The greater portion of them have been very anxious to go to the front, and now that there is a fair prospect of a large number of regiments leaving, the boys are all anxious to know just who will be included in the order.

This is not known and will not be made public until Major General Brook issues an order.

It is understood that the Eighth, Ninth, Twelfth and Fourteenth New York, Third and Fifth Illinois, First, Fourth, Fifth, Ninth and Sixteenth Pennsylvania, Fourth Ohio and Eighth Massachusetts will be among the first to be ordered to the front. In addition to these regiments there are many others which lack only a small amount of equipment and which could be equipped for operation without much trouble.

The rains which have fallen since Sunday have added materially to the comfort of army life and was afforded an excellent opportunity for active work.

Today every regiment is drilling and manouvering and the field is covered with them.

VOLUNTEERS AND REGULARS FIGHT.

WASHINGTON, June 15.—A special to the Post from Old Point Comfort, Va., says that a hot fight occurred last night in the streets of the village of Phoebus between Maryland volunteers and regulars from Fort Monroe. Officers from the volunteers and regulars were summoned hastily and ended the fighting after about seventy-five prisoners were taken and sent to the guard house. It is said about twenty men received injuries, none of them serious, during the melee.

NEW LODGE.

Another Branch of the Sexennal League in the City.

Fort Wayne lodge, No. 527, Sexennal league, is the name of a new branch of the order which was instituted in this city a few evenings ago. The officers are:

Past President—Henry McDole.
President—Emmett Dunfee.
Vice President—Frederick Conrady.
Secretary and Treasurer—Mrs. Mary A. Singmaster.
Marshal—Mrs. Lucy McDole.
Guardian—George Meyers.
Sentinel—Jacob Walschmidt.
Chaplain—Mrs. Lillian Dunfee.
Medical Examiner—Dr. Charles V. Leedy.
Trustees—Dr. C. V. Leedy, Adeline Waldschmidt and Frederick Conrady.

This lodge starts out with a large list of charter members and under other favorable auspices. It was instituted by State Deputy Edward Fleisher, who in an address remarked upon the favorable conditions attending its organization and institution. The Sexennial league is an insurance as well as benevolent order. There has been a lodge in existence in this city for some time, and its membership has reached such proportions that another lodge was a necessity, hence the organization of No. 527.

BIG SUMS OF MONEY.

Auditor and Treasurer Make Semi-Annual Settlements.

The Cash Divided Among the County, State, Township and City Funds --Court Notes.

County Auditor Bobilya and Country Treasurer Hunter today made their semi-annual settlement. There was a total received of $317,306.68. Of this sum the city gets for general purposes, $115,060.80; state, $73,359.36; county, $72,697.23; court house, $13,315.23; general gravel road, $6,768.23; city library, $3,538.73; compulsory education, $1,995.54. The balance goes to the several townships and the city school fund. The levy for the city library and the compulsory education funds was fixed by the school trustees. Treasurer Hunter will today make his report to Comptroller Berghoff and will settle with the state treasurer next week.

NOTES.

The last will and testament of the late Daniel B. Hays, of Lafayette, was today filed for probate. He leaves all his property to his wife and children.

In the circuit court witnesses in the Decatur electric light case are still being examined.

Hester E. Ward asks for a decree of separation from Marion S. Ward, who is charged with being abusive, with questioning her virtue, and with being an habitual drunkard.

The board of commissioners and County Auditor Bobilya visited the county asylum yesterday and they praise the institution and the farm highly.

Jennie C. Rowe asks for a decree of divorce from Oscar J. Rowe. The complaint is penned by B. F. Harper.

LOCAL LINES.

Mrs. Jane Chinworth, of Spy Run, is quite ill.

Charles Reuss and Robert Fox returned to Notre Dame today.

Mrs. W. H. Meyers is entertaining Mr. Meyers' mother, of Columbia City.

The New Haven Oil and Gas company will tomorrow mornipg start drills to work on well No. 2.

Frank Hill will resign his position in Wolf & Dessauer's dry goods store and enlist with the battery.

Friday night next the local branch of the Sons of American Revolution will celebrate the battle of Bunker Hill.

The members of the senior class of the High school were tendered an informal "at home" by Philip Bursley this afternoon.

A telegram from Washington announces that the salary of Postmaster Page, of this city, has been increased from $3,200 to $3,300.

Mrs. Ward, of North Calhoun street, was pleasantly surprised by a number of friends last evening in honor of her birthday anniversary.

Mr. and Mrs. P. A. Tyler and son, Robert, left this afternoon for St. Paul, Minn., where they will visit for two weeks with Mrs. Tyler's brother.

There were three prisoners, two vags and one train climber, in police court this morning. The vags were sent to jail and the climber ordered to leave the city.

Mrs. Shopman will entertain the ladies of the Rathbone Thimble circle and their friends to ice cream and cake, at the K. of P. hall on East Berry street, next Saturday evening.

The council committee of the whole will meet in the council chamber tomorrow (Thursday) evening to hear remonstrances against the proposed annexation ordinances.

Fred Oetting has received from Germany the sad intelligence of the death of his sister, Mrs. Sophia Speckman. Two sisters, Mrs. Peter Henscill and Mrs. Fred Fehling, were on the ocean en route to Germany when Mrs. Speckman died, and they arrived too late to even attend the funeral.

Captain W. F. Ranke has scores of applications for places in the battery and will have no trouble in securing his quota of the increase. Dr. Ranke is making examinations every day and already twelve men have passed and will probably leave for Chickamauga this afternoon. The recruiting office is in the rooms above Freese & Ranke's drug store.

Robison park is giving a good theatrical performance this week and the citizens are showing their appreciation by liberal patronage. Last night nearly every seat in the reserved section was occupied. A noticeable feature of the patronage is the refinement of the audience, which compare favorably with those to be found at the first-class entertainments at the Temple.

GOVERNOR TANNER, of Illinois, is neither a great man nor, if all tales are true, a very good man, but he's on top in his state and that will cover a multitude of shortcomings.

THE fleet of transports bearing the Cuban invading army is as evasive as Admiral Cervera's squadron before it sailed into the bottle. It is to be hoped that the troop fleet will not have to encounter a similar fate before it can be definitely located.

THE only recent authentic advices concerning Mark Hanna relates him to an enterprise for buying of the members of the populist national committee. The information is authentic chiefly from its probability.

COUNT CASTELLANE has disqualified himself for further dueling. It is in exceedingly bad form to wound an adversary in a French duel, but when it is done three times in a single combat it amounts to an outrage of all the proprieties.

THE mismanagement that has marked the attempt to get an expedition embarked from Tampa to Cuba makes an imperative call for the second installment of Secretary Alger's brief in defense. There has been blundering somewhere and until it can be more definitely located the blame will rest upon the fountain head of authority in Washington. Monday it was officially announced that the troops had left Key West. Tuesday it was officially announced that the expedition had just put out from Tampa. There is a deal of consolation for excitable folk in the thought that there is as yet no denial that there is to be an expedition.

THE city council has elected Mr. George F. Felts to membership on the Fort Wayne board of school trustees to succeed Mr. Samuel M. Foster. Of Mr. Felts' fitness and capacity for the position there will be no question. He is splendidly equipped for the duties and will bring to the place a training in school work and knowledge of the needs of the public schools that will make him an exceedingly valuable official. Mr. Felts has pledged himself to the purpose that interest on the school fund shall be devoted to public educational uses, and this no doubt means the carrying along of the plan conceived by Mr. Foster to make the school funds earn a public library building for Fort Wayne. No one will have any misgivings that the public schools of Fort Wayne have not been continued in capable hands by the election of Mr. Felts. Mr. Foster retires with the record of having made a notably able and satisfactory official. He was elected on a platform of his own creation demanding radical reforms in the custodianship of the school funds. That platform he has carried out with fidelity. He has, as he promised, made the funds earn interest for the public and not for private concerns. He has been a diligent and conscientious trustee, and has given to his work the finish of a cultivated intelligence. Mr. Foster's record on the school board was such [illegible] conditions, to have made folly of any attempt to defeat him. In his official career there were but one or two acts that elicited criticism and neither had any important bearing as in issue in the contest. Mr. Foster was a gold-democrat and did not support the regular democratic organization in the last national campaign. To that fact solely may be ascribed his failure of re-election. However much it may be regretted, there is no evading cognizance of the fact that the bitterness engendered in the last campaign is still intense and that no man who left the democratic party then can expect election to office by democratic votes now. Time will come when the embittered differences of that last campaign will be overlooked, if not forgotten, but that time has not yet come.

FELTS FOR TRUSTEE

He Won the Battle on the First Ballot.

Two Republicans Voted for Mr. Foster--The Salaries of the City Officers Fixed --New Ordinances.

There was a large attendance at the council meeting last evening, and more interest was manifested in the proceedings by citizens generally than by the city dads. The corridors and lobby of the council were the scene of much discussion and button-holing before the council met, the big interest being, of course, in the contest for school trustee to succeed S. M. Foster. The friends of Mr. Felts were confident and only smiled when asked how the contest would end, and it was generally conceded that he would win on the first ballot, and he did.

When the council was called to order Councilman Scheid moved the suspension of the rules and the election of a school trustee be proceeded with. The motion carried. The names of the candidates were not announced by councilmen, but were read from slips by City Clerk Monning. They were: George F. Felts, Otto Herbst, Allen Hamilton and S. M. Foster. A ballot was taken without any wait and the entire matter was settled in a few minutes, Mr. Felts winning on the first ballot by the following vote: Felts, 12; Herbst, 4; Hamilton, 2; Foster, 2. Mr. Felts was declared elected and he came forward and thanked the councilmen for the honor conferred on him. His term commences immediately.

Several appropriation ordinances were recommended by Comptroller Berghoff, one of them being for $2,160 with which it is proposed to employ four new patrolmen and two detectives. These ordinances were referred to the finance committee.

Councilman Wheelock introduced a resolution providing that the board of works proceed immediately to lay a conduit system before the paving of Calhoun street, so that in case the city purchases an electric light plant it will not be necessary to desturb the pavement on the street. Referred to committee on street lights.

Councilman Wheelock also introduced the following resolution:

Whereas, It is desirable that the wage workers of Fort Wayne should receive all the benefits which may come to them by reason of having rapid transportation over our streets and

Whereas, There are now many people living in the extreme suburbs of the city for the reason that as renters they cannot afford to pay the higher cost of living in the center of town and of owners of property they must seek homes in such parts of the city as they can afford to buy, and

Whereas, Such suburban residences is more healthful than in crowded tenements and should therefore be encouraged, and

Whereas, Such suburban residences takes many wage workers far from their work and during bad weather, in going to and from their work, subjects them to exposures which are dangerous to their health, this being especially true of young women and girls, and

Whereas, Such increased traffic as would result from the reduction in cost of car fare would, we believe, more than repay the company the difference in the present cost and the reduced price; be it; therefore,

Resolved, That a public need exists for a reduction in street car fare between the hours of 6 a. m. and 7:30 a. m.; 12:15 p. m. and 1:15 p. m., and 5:30 p. m. to 6:30 p. m to (3) cents; and be it further

Resolved, That his honor, the mayor. be and is hereby requested to appoint a committee of (5) five members from this body, whose duty it shall be to wait upon the superintendent or other officers of the Fort Wayne Consolidated Street Railway company, and urge upon them the value of our reasonable request and persuade them, if possible, to grant such request.

Unanimously adopted and the mayor appointed the following committee to wait on the officers of the Consolidated Street Railway company:

Wheelock, Scheid, Haag, Hench and Poirson.

The following ordinances were read a first and second time and referred to the committee on rules, regulations and ordinances: Compelling plumbers to take out a license and give bond; compelling citizens to get a permit when desiring to make excavations in streets and alleys; compelling the destruction of weeds, which are considered by the board of health dangerous to the community.

An ordinance fixing the salaries of city officers and employes was referred to the committee of the whole. The council went into executive session and it was midnight when the following salaries were agreed to:

Mayor, $2,500 per annum.

Comptroller, $2,000 per annum.

City attorney, $1,750 per annum.

City clerk, $1,500 per annum.

City civil engineer, $2,000 per annum.

Assistant city civil engineer, $85 per month.

Stenographer, $40 per month.

Superintendent of street repairs, $75 per month.

Foreman of street repairs, $60 per month.

Janitor of the city hall, $50 per month.

Assistant janitor of the city hall—$35.00 per month.

Custodian of parks—$70.00 per month.

Marketmaster—$25 per month.

City Poundmaster—$40.00 per month.

City Weighmaster—$55.00 per month.

Superintendent of Police—$1,200 per annum.

Captain of Police—$900.00 per annum.

Lieutenant of Police—$840.00 per annum.

Sergeants of Police—$800.00 per annum.

Patrolmen—$60.00 per month.

Patrol drivers $50.00 per month.

Station clerks $40.00 per month.

Electrician $35.00 per month.

Humane officer $35.00 per month.

Chief of the fire force $1,200 per annum.

Engineers $75.00 per month.

Captains $65.00 per month.

Electrician $50.00 per month.

Firemen, "Class A," $60.00 per month.

Firemen, "Class B," $55.00 per month.

Firemen, "Class C," $50.00 per month.

The telephone attendant at engine house No. 1, $40.00 per month.

Three special sanitary policemen, $45.00 per month each.

Councilmen $150.00.

Councilman Hench's resolution compelling the use of the union label on printing was amended to mean that all printing done by union printers should bear the label and instructed the city officials to use it on all work not given in competition.

John Dreibelbiss and others presented a remonstrance against the annexation of certain property until street car facilities had been provided. Referred to the committee of the whole.

Property owners petitioned for the extension of gas mains on Sherman street.

A petition for an electric light at the corner of Force and Buchanan streets was referred to the committee on street lights.

Property owners on Jackson street petitioned for the extension of water mains on that thoroughfare. Referred to waterworks committee.

A Short-Sighted Policy.

(From Indianapolis Sentinel, June 14.)

We beg to call the attention of the readers of The Sentinel to the following bit of choice express literature which we clip from the Fort Wayne Journal of Friday:

United States Express Co.,
Sixth Division.
CINCINNATI, O., May 16, 1898.

Agent ———:

DEAR SIR:—It has been unanimously agreed by all of the express companies that permission may be given any telephone company to place its instruments and connections in your office, provided no charge is made the express company therefor, and that at common points, where a telephone company proposes to furnish all express companies represented at your place, the same service without any charge.

If the telephone company will not furnish free service to all companies at common points, then you must not permit its instruments or connections placed in your office until such time as they shall agree to furnish free service to all of the companies.

It was also agreed by all of the express companies that when existing telephone contracts which require us to pay a stated rental for telephone service shall expire, the telephone company concerned shall be required to remove its instruments and connections unless they will agree to furnish you with service free.

When your present telephone contract expires you will therefore not renew it, excepting as above.

Yours truly,
GENERAL SUPERINTENDENT.

This is richness served with sauce. The nub of the whole thing is simply this. In every city of the state—more than a hundred in all—where there is competition in telephone service, the independent home companies have literally wiped the broad and smiling earth with the Bell monoply, which latter, in desperation, and in the hope of destroying the independent companies, has been for the past two years, and still is, furnishing telephone service in many of the towns free of charge. The independent companies, of course, do not do this and their patrons do not expect them to do it, well knowing that if the monopoly could drive them out in this way the old rates and even higher ones would soon be in force. But the express companies, it seems, have taken up the fight for the Bell monopoly and propose to exclude all independent telephones from their offices, because it is well known that the independent companies will not give service for nothing.

The people of the state should accept the challenge just as it has been tendered. We advise our readers to turn their field glasses on Fort Wayne and watch the outcome there. We miss our guess if the business men of that city do not convince the express companies in short order that they have made a great mistake. We feel assured that the latter will not persist in inviting public displeasure by identifying themselves with the obnoxious telephone monopoly. They certainly can't afford to pursue such a short-sighted policy, which can have no other effect than to injure themselves.

You are not so Warm

As you will be during the next few weeks. Why not be one of the comfortable people who wear our cool clothes? Prices are at zero mark while the quality is 90 in the shade.

For instance, the summer suits we are selling at $7.50, ought to sell for $10. The $12 suits ought to bring $15, and so on.

The coolest suit you can buy is a serge --the fast color kind we are selling at $10 and $12 the suit. Look and wear like custom-made--fit like custom-made.

Crash suits are always cool. Prices are ridiculous. A good crash suit for $3, a better for $4, a better still for $5. Don't put off buying until sweltering weather; come now.

"Blackbeard."

Mr. Frank R. Stockton, in his serial, "The Buccaneers of Our Coast," in the May St. Nicholas, says: About this time one of the most famous of sea-robbers was harassing the Atlantic coast of North America, and from New England to the West Indies he was known as the great pirate "Blackbeard." This man, whose real name was Teach, was a terrible fellow in appearance as well as acts. He wore a long, heavy black beard, whihc it was his fancy to separate into tails, each one tied with a colored ribbon, and often tucked behind his ears. Some of the writers of that day declared that the sight of this beard would create more terror in any port of the American seaboard than would the sudden appearance of a fiery comet. Across his brawny breast he carried a sort of sling, in which hung not less than three pairs of pistols in leathern bolsters, and these, in addition to his cutlass and a knife or two in his belt, made him a most formidable-looking fellow. In the early part of the eighteenth century Blackbeard made his headquarters in one of the inlets on the North Carolina coast, and there he ruled as absolute king, for the settlers in the vicinity seemed to be as anxious to oblige him as the captains of the merchantmen were anxious to keep out of his way.

Navy Desertions in Time of Peace.

From "On a Man-of-War": Desertion from the navy at times seems almost inexplicable and can be accounted for only on the ground of fascination. Asked in regard to it, a captain of much experience once said: "I really believe that if you freighted a ship for heaven, and were obliged to touch in at hell for wood and water, half the boat's crew would desert."

BICOLA PILLS

Prevent Waste: Fortify Body and Mind: Feed the Nerves: Make Flesh and Blood.

The Ideal Tonic For Men and Women.

One of the best-known hotel proprietors in the United States is Mr. Henry W. Lawrence, proprietor of the Bates House and Spencer House, at Indianapolis, Indiana. When a man like Mr. Lawrence tells the people everywhere to take **Bicola Pills**, the great blood and nerve remedy to regain their health and strength; when he tells the weak, tired and nervous that this great remedy will make them strong and well, it means something coming from a man like Mr. Lawrence.

He writes that **Bicola Pills** gave him immediate relief from a severe attack of rheumatism and general nervousness, and he earnestly advises all sufferers from nervous and blood troubles to use **Bicola Pills**.

Mrs. Clara Ehrenhart, Secretary of the Board of Education at Lewistown, Ill., writes:

"I have found **Bicola Pills** to be a cure for dizziness and nervousness, and heartily recommend them to any one afflicted with nervous trouble. They are unsurpassed for sleeplessness. No need lying awake at night if you take **Bicola Pills**. They have given me most wonderful relief."

[illegible] Jules Verne's hero, if he could be clothed in flesh, would gasp at the news that it will soon be possible to girdle the earth three times within his own marvelous limit of eighty days for one circuit. Even Prince Khikiff, with all the responsibility of office as Russian Minister of Communications, has committed himself to the statement that, when the Siberian railway is completed, the journey round the world can be made in thirty-three days. This estimate is based on actual and ordinary rates of traveling.

That this time could be materially reduced by express trains and swift steamers is very obvious. Allowing for all loss of time due to gradients and imperfect roads, it is estimated that it will soon be possible to travel from "Liverpool street to Charing Cross, via Yokohama," in 27 days 17 hours. This is the time table, prepared by an expert: London to Moscow, 36 hours; Moscow to Vladivostock, 149.1 hours; Vladivostock to San Francisco, 270 hours; San Francisco to New York, 73.1 hours; New York to Plymouth, 133.8 hours; Plymouth to London, 3.2 hours.

First Steamship to Cross the Atlantic.

It was under the American flag that the first steamship crossed the Atlantic. The Savannah, built in New York by Francis Picket, was a vessel of 300 tons burden, and was still in the stocks when Wm. Scarborough, a wealthy merchant of Savannah, Ga., bought her. He advertised extensively for passengers and freight to start the trans-Atlantic voyage. There were no responses; people everywhere were enthusiastic, but were not confident enough to risk either life or property in such an undertaking. On the 20th of May, 1819, the Savannah started; twenty-two days later she ran into the river Mersey and came to anchor off Liverpool, "with not a scheen, bolt or rope-yarn parted."

Asthma.

How it is Treated and Cured by the New Method.

Asthma is usually known as paroxysms of *difficult breathing*, lasting from a few hours to several days, coming on at intervals, to be followed by remissions, during which the patient breathes with comparative ease.

The attack returns again at regular intervals, or is provoked by exposure to cold, damp air, severe efforts, or even mental emotions. During the attack the respiration is labored, with wheezing, frequent cough and threatening suffocation.

Treatment and Cure.—There is probably no disease of the respiratory organs which submits so quickly to "HYOMEI" and the Australian Dry-Air Treatment as Asthma, a few moments' use of the Inhaler giving immediate relief in the most severe cases, while its *daily* use invariably cures. In chronic cases a few drops of "HYOMEI" placed on a piece of clean flannel and pinned to the night robe will prevent an attack and insure a good night's rest to the patient, curing the disease while he sleeps.

"HYOMEI" CURES BY INHALATION

and in such diseases as Catarrh, Catarrhal Deafness and Bronchitis always gives immediate relief and a permanent cure. Coughs and Colds cannot exist where it is used. To take "HYOMEI" requires no skill on the part of the patient; there is no waiting for hours in an office, no car fare to be paid, or monthly payments to make. You can treat yourself in your home, at your work, in church, or at the theatre.

Every Bottle is Guaranteed to Relieve or money refunded.

"Hyomei" Inhaler Outfit, $1.00. Extra bottles "Hyomei," 50c. "Hyomei" Balm, a wonderful healer, 25c. Sold by druggists or sent by mail. The Story of "Hyomei" mailed free.

SHOP AND RAIL.

The Pennsylvania Shopmen Get Out a Picnic Program.

William Donnell, Jr., Injured at Baltimore, Md.—Accidents and Incidents of the Day.

The committee on entertainment has issued the program for the annual picnic of the Pennsylvania shopmen next Saturday. It includes various special features, such as sleight of hand by Prof. Chidler, ventriloquism by Prof. Heine, wing and back dancing by Hez kiah and Jeremiah and fortune telling by Palmist Zilda. There will be the usual sports on land and water and a musical program by the Wayne Tent band. The excursion train will run in three sections, the first leaving this city at 7:15 and the last at 7:45 o'clock. Returning, the trains will leave Rome City at 7:15, 7:30 and 7:45 in the evening.

MASTER CAR BUILDERS.

SARATOGA, N. Y., June 15.—The Master Car Builders' association began its thirty-second annual session here today. The convention opened with a prayer by Bishop John H. Newman, followed by an address by President S. A. Crone, of New York.

WILLIAM DONNELL, JR., HURT.

Willial Donnell, sr., of the electric works, yesterday received a letter and a newspaper clipping from Baltimore, Md., giving an account of a serious accident which befel his son, William, a few days ago. The young man is an electrician in the employ of the Edison Electric Light company and was injured while assisting in unloading a dynamo at the company's plant in Baltimore. The machinery slipped from the wagon, crushing Donnell's right leg and arm. The letter states that the injured man is getting along first rate, considering the extent of his injuries, and has been removed from the hospital to his home.

REVISION OF TRAIN CREWS.

A general revision of train crews is now in progress on the Nickel Plate. The changes so far include the following assignments: J. Friend with Conductor Webb, T. J. Reardon with Conductor R. C. Ross, J. C. Stuart with Conductor George Morfier, G. B. Dillon with Conductor D. L. Billings, T. S. Dick with Conductor S. Deahl, C. Bigelow with Conductor O. Pierce, W. C. Brewster with Conductor C. Charles, J. W. Bowdine with Conductor T. H. Seaney, C. D. Snyder with Conductor C. LaPoint, H. D. Beam with Conductor A. Anderson and J. W. Bushey with Conductor H. Overholser.

General and Local Gossip.

Fireman George Wall, of the Pittsburg, is sick and off duty.

Next week A. G Porter lodge, No. 141, B. of L. F., will nominate officers.

The electric works sent an eighty-light dynamo to Greenville, Ohio, yesterday.

F. J. Ruch has reported for duty at the Pittsburg copper shop. He had been sick.

Yesterday the Bass works sent a large boiler to the Iroquois Canning company, Onarga, Ill.

G. M. Johnson and John Ryan, of the Pittsburg copper shop, are off duty on account of sickness.

Charles Benoy, machinist at the Bass works, has gone to Mt. Vernon, Ohio, to visit his mother.

M. M. Milot, of Decatur, Ind., was in the city yesterday on business with the Electric corporation.

The Pennsylvania pay car comes here tomorrow, and the Wabash pay car a week from tomorrow.

J. A. Wise, who had a hand hurt a week or two ago, resumed work at the Pittsburg tank shop this morning.

After an illness of four weeks, Casper Hurtong, the painter, has returned to his duties in the Pittsburg shops.

Joseph Golden, fireman on the Grand Rapids and Indiana road, will be married this evening at Richmond, Ind.

Dr. E. F. Wagner is attending a meeting of medical examiners at Cleveland and will not return home until Friday morning.

General Superintendent Charles Watts, of the Pennsylvania company, passed through the city this morning, en route to Chicago.

James V. Costigan is laid up with an injured foot. The accident occurred several days ago, but the wounded member did not become completely crippled until yesterday.

Nickel Plate Brakeman D. Keim is visiting friends in Huntington.

Lincoln Johnson, of the electric works, has moved into his new home on Baker street.

Mrs. Frank Maines, wife of the fireman on the Lake Erie and Western road, is lying ill at her home on the north side.

A. C. Parish, of the Wabash freight house, has returned from Northern Indiana, where he visited relatives a few days.

William Birely, who had a foot burned a week ago, has recovered and is working again in the Pittsburg blacksmith shop.

D. Frank Crawford, assistant motive power superintendent of the Pennsylvania, arrived home from the east this morning in private car 503.

Daniel Bevelheimer, watchman at the Broadway and Pittsburg gates, has gone to Antwerp, Ohio, to attend the funeral of his brother-in-law.

Nickel Plate Engineer Bert Baughman has returned from Pennsylvania, where he visited relatives a few day. He resumed work on the road this morning.

Brakeman W. C. Reffelt, of the Nickel Plate, is working again after a lay off for the purpose of entertaining his sister from Chicago, who has been visiting him.

R. F. Douglass, of the Wabash ticket office, has gone to Illinois to join his wife, who has been visiting in that state for some time. They will return home tomorrow.

All passenger equipment of the New York Central, the Lake Shore, the Michigan Central and Nickel Plate lines is to be repainted a uniform olive color with gold striping.

Dick Vachon, for several years employed at the Bass machine shop, has resigned to enter the employ of Moran, the ice man. Mr. Vachon will have charge of a wagon.

Passenger engine 150 came out of the Stony Island shops yesterday, after a general overhauling, and will go into service on the eastern division as soon as she has been tested.

A company has been formed which proposes to build a new road from Kansas City to Galveston, Texas, 575 miles, to be known as the Gulf, Chickasaw and Kansas City road.

The Fitchburg road, in connection with the West Shore and the Nickel Plate, has put on a train which makes the run from Boston to Chicago four hours quicker than any former schedule.

President Frank Thomson, of the Pennsylvania, who is now making his annual inspection of the lines which go to make up that great system, will arrive in this city Friday. Today and tomorrow he will inspect the southwestern system.

George Potter, master mechanic of the New York Central, who lost his position in the recent reorganization of the departments on the road, has been in the employ of the New York Central forty-five years, and twenty-three years its master mechanic.

John Potter, sr., the veteran cabinetmaker at the Pittsburg shops, who has been a sufferer from dropsy for the past three or four months, is now getting better and will be able to resume work before long if the improvement continues. Mr. Potter resides at 131 Sherman street.

Last evening R. Breese returned to the city after an absence of eight months, and tomorrow he will resume his old position in the Pittsburg shops. During his absence from town Mr. Breese was in the surveying department of the United States and spent most of the time in South America.

H. A. Engmann, the organ builder, has secured the contract for building a new pipe organ for the St. Mary's Catholic church at Decatur, Ind., the price being upwards of $3,000 and the time limit December 1. Professor Engmann has built up a profitable trade in the pipe organ building line.

The National Association of Railway Postal Clerks is holding its annual convention this week at Omaha, beginning today. The members were welcomed by Mayor Broatch, and Dr. G. L. Miller, who represents the mail clerks on behalf of the association, and G. L. Schaffer, president of the association, responded.

One of the important matters to be considered is the organization of a mail clerks' mutual accident association.

Charles M. Pratt has accepted the position of chairman of the passenger committee of the southwestern lines and will take charge next Monday. Mr. Pratt has been in railroad service since 1887, and was for some years joint agent of the western lines in the division handling of immigrant business.

The citizens of St. Thomas, Ontario, are working with the view of getting the Wabash to locate locomotive and car repair shops in that city. A committee has already waited upon the railway officials and presented their petition. St. Thomas is the middle division terminal of the Buffalo branch of the Wabash road. It is the home of Mr. and Mrs. W. W. Olmstead, former citizens of Fort Wayne, who went there to reside last winter. Mr. Olmstead holds an important position in the motive power department of the Wabash.

THE NORTHWESTERN RAILWAY IS PATRIOTIC.

CHICAGO, June 15.—The officers of the Northwestern railway have decided to show their patriotism and to inspire their passengers by decorating the company's buildings everywhere along the three divisions of the road. The first flags were raised on the Milwaukee division. Sixteen beautiful national emblems are in place today between Chicago and Milwaukee and the breeze is unfurling Old Glory and making the stations, with their towers, appear more like small fortresses than peaceful way depots. It was stated today that forty of the principal places in Illinois had been supplied so far and that as fast as possible the railway officials would try to show their patriotic sentiments to the smaller communities. In every village or town having 300 or more inhabitants there will be a "flag station." There are about a hundred such stations on the Milwaukee, Galena and Wisconsin divisions. On lines in Iowa, Wisconsin and Minnesota the stars and stripes will be placed as well, and this will necessitate the purchase of a large number of flags for the 7,000 miles of road.

ONLY ONE HIT.

Bates Lets the Hoosiers Down With a Two-Bagger.

The "Old Soldiers" Won Another Game From Fort Wayne by Outbatting Them—Notes.

Fort Wayne lost the second game to the "Old Soldiers" yesterday because of the old complaint, inability to hit the ball. Bates and Brodie were opposing twirlers and "Beauty" pitched a game which should be a winner ninety-nine times in a hundred. But the Fort Waynes couldn't solve Mr. Bates' curves, only one hit being made—that a three-bagger by O'Meara in the first inning, after Hickey had reached first on balls. The fielding of the team was gilt-edged, but when the players don't bat there is no chance to win, no matter how fast the team may field nor how good the pitcher may twirl. The last game with the Daytons will be played today and then the Hoosiers will move over to meet their "hoodooes," the Governors. Score:

MANSFIELD, 4; SPRINGFIELD, 12.

SPRINGFIELD, Ohio, June 15.—Manager Whistler, of the Springfield team, says it is either a salary reduction or the whole league will be forced to quit. There is but little kicking in the Springfield club over the proposition. Mansfielders in a body, however, object. Manager Howard conferred with them last night. Springfield's success due to heavy hitting. The score:

NOTES.

Belden will probably be sent back to Cleveland.

In the eleventh inning of the game yesterday the Youngstown's commenced horse-play and Umpire Colgan awarded the game to Grand Rapids 9 to 0.

Al Fisher didn't play with the team yesterday. Fisher always did have a great head on him and it is probable he waited until today before reporting so that he would get in too late to have his salary cut.

Musser, former second baseman and captain of Youngstown and now deposed, has gone to work. He is a car conductor in Youngstown and steadfastly refuses all overtures from Lew Whistler to get him to play in Springfield.

The Randalls defeated the Waynes yesterday, 13 to 9, at Lakeside park. The game was a much better one than that of Sunday, but how the Waynes ever believed they had a chance with Frank Rusie France in the points against them is a mystery.

Eddie Mazena has written Manager Lew Whistler that he will retire from the diamond. His father died a few days ago and left to his care an aged mother, who, it is understood, is possessed of considerable wealth.

The schedule calls for two games at Dayton today and should Fort Wayne win them both the team will have a fine start up the ladder. Severs will pitch one of the two games. He has been twirling for an Ohio team and tells that he is now in better shape than ever before. The other game will probably be pitched by George Reiman, as Herr is on the bench and may never again pitch for Fort Wayne.

The reduction of salaries in the Inter-State league commences today and while a number of players threaten to rebel it is believed their better judgment will prevail and they will stand the cut. The Mansfield players are the strongest objectors, but inasmuch as they cannot sign with any other club they will probably weaken. The reduction was a necessary measure and the players should be the first to acknowledge this fact.

Harrison DeHaven has another rival. Yesterday Mrs. William Sheets presented him with another grandson, who immediately entered into competition with his grandsire, who has for years had a monopoly on yelling for democratic heroes.

E. G. Anderson last evening received a letter from his nephew, J. S. Knox, who states that he has been chosen captain of one of the companies in the Thirty-fifth regiment, Michigan volunteers, and expects to be sent to the Philippine islands. Captain Knox often visits this city and is well known to our people.

This afternoon at 1 o'clock, at the home of the bride's parents occurred the marriage of Miss Louisa, daughter of Mr. and Mrs. Paul Trier, to Henry Meyer. The bride was attired in a gown of white silk and carried bride roses. She was attended by Miss Kate Lahmeyer and Miss Lena Schroder as flower girls, and the bridesmaids were Miss Settlemeyer and Miss Elizabeth Meyer. Louis Trier and Mr. Bliedernicht attended the groom. Mr. and Mrs. Meyer will reside with Mr. and Mrs. Christian Meyer on the Piqua road.

GRAPE-NUTS.

A New and Highly Nutritious Food.

The odd sounding name is used to designate a peculiar food, made not exactly in the shape of nuts, but having a pleasant, nutty flavor and crisp brittleness that makes them a charming favorite with the palate.

Of yet more value than the taste is the food value of Grape Nuts. They are largely composed of grape-sugar, (your dictionary can tell you about that) and those who use them will find the morning meal has not only been pleasant, but has been quickly and easily digested; for grape-sugar is an article produced in the human body at one stage of the digestion of food, and is at once ready for transformation into good healthy blood and nourishment.

It should not be understood that the grape-sugar, of which Grape-Nuts is made, has been produced in the human body. But this grape-sugar is made by much the same process as the body employes, and is produced by natural treatment of grains without any foreign substance whatever. It is made by the Postum Co., at Battle Creek, Mich. The result is perhaps the most highly nutritious food ever produced.

Grocers keep Grape-Nuts.

TERRIBLE
BREAKING OUT
CURED BY CUTICURA

I was afflicted with a terrible breaking out. I was treated by the very best physicians, who pronounced it blood poison, but it got worse. I was suffering untold agony, and finally had to give up work. CUTICURA REMEDIES were suggested, which I immediately procured. From the first, I experienced a soothing relief, notwithstanding my intense pain. I improved right along till at last *I was entirely cured, and not a sign on my body anywhere* indicating that anything had ever been the matter with me.

GERMANY TO OPPOSE

Will Put Forth a Strong Hand at Manila.

Will Prevent Debarkation of American Troops.

German Consul Has Instructions From Berlin.

The United States Forces Must be Sufficient to Guarantee the Safety of Germans.

LONDON, June 15.—The Star today reiterates the story that Emperor William, of Germany, has ordered the German consul at Manila to oppose the debarkation of American troops unless in sufficient force to maintain order and protect the Germans. The Star adds that a notification to this effect has been officially given to the United States embassy at Berlin and to Secretary Day at Washington.

Admiral Deitrichs, according to the Star, has 2,400 troops and he could disembark 1,500 with two batteries of artillery, for the partial occupation of Manila.

Continuing, the Star says: "Germany is not likely to have taken such a grave step without securing the adhesion of other powers interested in the far east, namely Russia, Japan and England. They are certainly hostile to Germany's project, but it is not thought likely that they will raise objections and we may soon have very important news from Manila."

SPAIN NOW LOOKS TO RUSSIA FOR AID.

LONDON, June 15.—A special dispatch from Madrid published this afternoon, purports to give the substance of an interview with Senor Sagasta, the Spanish premier, who is quoted as saying that yesterday's rise on the bourse was due to telegrams advising leading financiers that Russia has taken steps to intervene shortly in the settlement of the Philippine question. The premier added, however, that personally he had no knowledge of such intervention.

GERMANY WILL NOT INTERVENE.

WASHINGTON, June 15.—The state department has been officialy advised that reports that Germany would take an issue in the Philippines are unwarranted. German ships would be on hand at Manila to afford protection to German subjects and property but Germany had no thought of intervention.

THIRD EXPEDITION TO SAIL SATURDAY.

SAN FRANCISCO, June 15.—It is stated semi-officially at Camp Merritt that the third expedition for Manila will sail from this port on Saturday week, and that the expedition will be under the command of Brigadier General King.

The make-up of the expedition will, in all probability, consist of the two Idaho battalions, the Fifty-first Iowa regiment, remaining detachment of the corps of engineers, First Montana regiment, Seventh California regiment and the first Tennessee regiment.

STARVATION TAPS FOR ADMITTANCE.

(Copyright, 1898 by the Associated Press.)

OFF SANTIAGO DE CUBA, Saturday, June 11, 4 p. m., per the Associated Press dispatch boat Wanda, via. Kingston, Jamaica, Sunday, June 12, 7 p. m.—Rear Admiral Sampson and Commodore Schley, with their combined forces, are slowly but surely placing such a net work about Santiago de Cuba and are cutting off so effectually every source of outside aid, that within a short time starvation's tapping will give way to death's solid knock for admittance at the doors of the ill-fated place.

Within three days three separate sources of supplies and reinforcement have been cut off, and Santiago de Cuba is now isolated from the world and is now down to famine rations.

When Admiral Cervera arrived at Santiago de Cuba with his fleet the people there welcomed him for the relief they thought he would bring, but instead of food he brought them 600 more men to feed.

The only aid he had to offer was the tons of ammunition in his ships' magazines.

A map of the harbor furnished today by spies shows that, after the bombardment of the harbor forts by Commodore Schley on Tuesday, May 31, the Spanish cruiser Reina Mercedes, which was disabled was towed into the bay behind the Socapa battery, where she lies with two torpedo boats. Half a mile further up, under the lee of Cayo Smith and the mortar batteries, is the Viscaya, commanding with her broadsides the two narrow entrances to the east and west of Cayo Smith. Half a mile north and at the gate of the third narrow entrance lies the Almirante Oquendo, and half a mile to the northeast are the Cristobal Colon and the Maria Teresa.

The ships are about a mile and a half from the city proper, shallow water forbidding them to go much closer.

The sunken collier Merrimac is directly in the narrow part of the channel.

BRITISH STEAMER PRIZE AT KEY WEST.

KEY WEST, Fla., June 15.—The British steamer Twickenham, captured off Kingston on June 10 by the auxiliary cruiser St. Louis, arrived here today in charge of a prize crew. She has on board 3,000 tons of coal and one passenger who is supposed to be an employe of the Spanish government.

DIPLOMAT SHOT.

Count Arco-Valley, of the German Embassy, Injured.

In London a Stranger Fires Two Bullets at Him—Would-be Assassin Arrested.

LONDON, June 16.—While the first secretary of the German embassy here, Count von Arco-Valley, was emerging from the embassy this evening a stranger fired two shots from a revolver at him. One of the bullets entered the secretary's back, but the wound is not believed to be fatal.

His assailant was arrested after firing at and missing a policeman. The motive which prompted the man to attempt the life of Count Arco-Valley is not knows.

DEAL TRANSFERRED.

P. D. Armour Takes Possession of the Leiter Corner.

The Napoleon of the Grain Pit Turns Over His Holdings to the Big Elevator Man.

CHICAGO, June 15.—Arrangements for the closing of the Leiter deal have been completed. Final papers were placed before Joseph Leiter today, and 7,000,000 bushels of choice cash wheat were consigned to P. D. Armour, who will henceforth control all the Leiter holdings.

Armour has already begun to dispose of his holdings, and unless the coming crop is harvested sooner than anticipated it seems likely that the immense line of wheat in the northwest will be consumed.

It is stated that Leiter will not lose as much as generally believed. Armour's assumption of the burden is said to have meant at least $2,000,000 for Leiter. That much loss would be incurred if the immense line of wheat had to be merchandised by trustees, with the probability of a declining market. The loans made Leiter by the local banks aggregate nearly $7,000,000. Each bank was careful to protect itself with margins that would insure against loss. Interviews with a number of the bankers interested show that they are all satisfied with the transfer of the deal to Armour.

Another Attachment Against Leiter.

NEW YORK, June 15.—The sheriff has received another attachment against Joseph Leiter, of Chicago, in favor of Thames & Marsey Marine Insurance company for $81,915. The attachment was granted by Justice Daly of the supreme court.

CABINET RESIGNS.

Culmination of the Ministerial Crisis in France.

PARIS, June 15.—The cabinet met this morning and reviewed the situation. The ministers reassembled at 2:30 p. m., when M. Meline handed President Faure the resignation of the whole cabinet, which the president accepted, while requesting the ministers to continue the direction of affairs until their successors are named.

It is expected that M. Ribot, the former premier and minister of finance, will be invited to form a new ministry, and it is considered probable that M. Dupuy, who was premier of the cabinet which preceded that of M. Ribot, will join the new ministry.

Death of Mrs. Bulger.

At 10:30 this morning, at her home, No. 176 Griffith street, occurred the death of Mrs. Patrick Bulger, aged sixty years. Mrs. Bulger had been ailing for a long time and her death was not unexpected. She leaves, besides a husband, six children, viz: Charles J., of Hillsdale, Mich.; John H., George J., Ida E., Emma A. and Nellie M., of this city. Mrs. Bulger was the sister of the late John W. Ryan. She was a member of the Catholic church and of the Rosary Sodality of the Cathedral. The funeral arrangements have not been completed; they will be announced tomorrow.

The International Business college entertainment tonight will be the best one of the series. Prof. Wm Heine, vontriloquist; Frederick Gresham, the favorite colored basso; Willis, the black Herrmann, and Mr. Armin, descriptive vocalist, with Rentfrow's Pathfinders last week at the Temple, will be the features.

Arthur, the nineteen-weeks-old child of Mr. and Mrs. Arthur Wieland, of No. 36 Watkins street, died this morning of brain fever. The funeral will occur Thursday morning at 10 o'clock.

CUBANS CO-OPERATE

Admiral Sampson Has Been Reinforced by Them.

Several Hundred Natives Now With Americans.

Town of Aserraderos Has Been Occupied.

United States Forces at Guantanamo in a Very Satisfactory Condition—Sampson's Report.

GUANTANAMO BAY, Tuesday, June 14—5 p. m.—The American marines and Cubans today completely routed a force of 400 Spaniards. One American was slightly wounded. The Spaniards lost about forty killed.

SAN FRANCISCO, June 15.—The second fleet of transports weighed anchor about 1 o'clock and are now on their way to Manila.

WASHINGTON, D. C., June 15.—The navy department posted the following bulletin:

"Admiral Sampson reports that he has been reinforced by several hundred Cubans and that our forces at Guantanamo are in a very satisfactory condition. The town of Aserredaros has been occupied by the troops under General Rabi. The men under General Garcia are co-operating with the American forces."

TROOPS SAILED AT DAYLIGHT.

TAMPA, Fla., June 16.—The hospital steamship Olivette returned to Port Tampa last night remaining here until 1 o'clock, coaling and receiving her first touch of white paint, symbolic of her peaceful mission.

The warlike equipments of the correspondents on board were collected and put on another vessel, the rules not permitting arms on hospital ships. The Olivette, with the fleet, got away at daylight. The idea of stopping at Key West has been abandoned.

DEEDS OF DARING PERFORMED IN CUBA.

(Copyrighted, 1898, by the Associated Press.)

OFF SANTIAGO DE CUBA, Saturday, June 11, 4 P. M., via Kingston, Jamaica, Sunday, June 12, 7 P. M.—Since the establishment of the blockade several interesting and daring expeditions have been made in the enemy's country to discover the actual condition of affairs in Santiago de Cuba. It is not an easy matter to get near the city these days. About eight thousand Spanish soldiers and two thousand home guard troops cover every roadway about the place, and General Pando, the Spanish military commander, is very active, although his operations are limited by the mountains surrounding the place, which are full of insurgents.

On Saturday, a week ago, June 4, the converted lighthouse boat Suwanee, commanded by Lieutenant Commander Daniel Delehanty, arrived off Santiago de Cuba. She had on board about 70,000 rounds of ammunition, 5,000 rifles, 1,000 carbines, 2,000 machetes, and hundreds of pounds of bread, bacon and other provisions. With the aid of a Cuban pilot picked up by Commodore Schley, she landed this stuff in two days besides taking an active part in the bombardment of the forts at Santiago de Cuba.

The landing was effected about twelve miles to the westward of Santiago and in the presence of 500 insurgents. About 100 more insurgents were on guard in the mountains and in the passes. The ammunition and food, with the arms, have therefore put the insurgents in excellent shape to prevent the Spaniards from getting provisions from the outside through the island itself.

It is believed that the arming of a force of insurgents has assisted in cutting off one part of the Spanish army from another.

Tuesday, June 7, while working near Cesserazere, twelve miles from Santiago de Cuba, Lieutenant Commander Delhanty saw two sloops trying to run away up the river Asserazero. He fired at them and they were run ashore and deserted.

Later a boat's crew from the Sauwanee captured them. Each of the sloops was provided with a Spanish flag and one of them had on board a heliograph for signalling purposes. The flag and the heliograph were taken as spoils of war. One of the sloops was presented to the Cubans, and the other, which already had a few holes in it, was sunk by shots from the Suawanee.

THE TEMERARIO OUT OF BUSINESS.

ASSUMPTION, Paraguay, June 15.—Via Galveston, Texas, June 15.—The commission appointed by the government of Paraguay, at the instance of the United States consul, to inquire into the exact condition of the Spanish torpedo boat Temerario, now in these waters, reports that it is impossible for her to put to sea. The commission also resolved not to place any limit upon the time in which she is to repair, ascertaining that portions of her machinery are wanting and must be shipped to her from abroad.

MARINES HOLD FORT AT GUANTANAMO BAY.

WASHINGTON, D. C., June 15.—With General Shafter's expedition on the way to Santiago and the military branch busily engaged in preparing the expedition to be sent against Porto Rico, there is now nothing to do for the navy but to wait patiently until the troops arrive at Santiago.

So far only one report has come from Sampson telling of engagements between the marines at Crest Heights and the Spanish troops in the chapparel and no mention has yet been made officially of any of the subsequent night attacks upon the marines.

In his dispatch of Monday night, Admiral Sampson spoke of the first affair as an attack upon the Americas outposts and the naval efficers here feel that because he has made no further report that the subsequent engagements described by the press correspondents have been of the same character.

It is realized at the department that the situation of the marines is a very uncomfortable one, suffering as they are from harrassing night attacks that prevent them from securing much needed rest and unable because of the character of the country and the nature of the tactics adopted by the enemy from getting a fair chance at them.

However, the department is assured that there is no real danger in the situation, because if seriously threatened by an overwhelming force the marines with very short notice can retire aboard the American warships, where they would be in perfect safety. It is mainly sentiment, embodied in a determination to keep the American flag flying over the place where it was first planted, and thus retaining for the navy the honor of obtaining the first position on shore, that keeps the marines in camp in Guantanamo bay.

It is true, however, that an important secondary purpose will be served by their presence, as the place will afford a proper cable station when the French cable between Hayti and Santiago is spliced.

It is not impossible to operate a cable from a ship in the harbor, but the communication in such cases is precarious and undesirable.

Word has come to the navy department that the St. Paul has left Cape Haytien with operators and instruments for the cable and it will not be surprising if Sampson opens direct communication with the United States via Hayti at almost any moment. What threatened to be an international difficulty over the operation of the cable under such conditions has been removed and it is said that the French cable company owning the line has been most obliging in acceding to the request of our government.

Although Tampa dispatches said that the transport fleet was going to double Cape Antonio, the western extremity of Cuba, in proceeding to Santiago, the naval officials do not believe that is the case, for the reason that the western route is fully 200 miles longer than the route by way of Cape Maysi, and in addition the transports would have to fight the gulf stream until they had got clear around Cape Antonio.

On the eastern course the ships would have the full benefit of the favorable current until they reached Cape Maysi, about two-thirds of the distance to be traveled. It is believed here that the idea that the ships were westward bound grew out of the circumstance that they headed for the Tortugas, the point selected for the fleet of transports to pick up the heavier vessels on the convoy squadron, such as the Indiana, which has not been able to get within ten miles of Key West, because of the lack of water. The officials see no reason to change their original estimate that the troops will be off Santiago Friday.

DENIAL OF ORDER TO MOVE TROOPS.

WASHINGTON, June 15.—An authoritative statement at the war department today contradicts the reports from Chickamauga that 15,000 troops have been ordered to move at once. It is said that the orders sent to the commanding officers at Chickamauga direct the equipping and arming of the troops at the earliest possible moment. This, however, is in line with the general policy of hurrying up preparations all along the line. The order did not suggest any movement of 15,000 men. It may be naturally inferred that these orders to expedite the equipment will lead up to subsequent orders for the movement of the troops.

Such orders, however, are for the future to bring forth In pursuance of the order to equip General Brooke sent a dispatch to the war department today, asking as to the whereabouts of orduance stores essential for this equipment. The stores are on the way, and although there has been considerable delay, the officers believe this will be straightened out in a few days, and that the work of equipment will be carried out.

Mrs. Lillie Bickelhaupt and little daughter, Frieda, arrived here from Quincy, Ill., on an extended visit to Prof. and Mrs. H. R. Charles, of No. 185 Oakland street.

DEBATE GETS WARM

Newlands' Resolution Still Holds the House.

Annexation of the Sandwich Islands Discussed.

Moral Phases of the Question to the Fore.

Mr. Berry Declares There Is More Immorality in Washington Than in Honolulu.

WASHINGTON, June 15.—The house met today at 10 o'clock to resume the Hawaiian debate Sixteen members were in attendance. The senate bills granting American register to the ships Specialist and Unionist were passed.

Mr. Fitzgerald, democrat, of Massachusetts, spoke against the Newlands resolution. In the course of his speech he emphacized the failure of the majority of Hawaiians to express their desire relative to annexation. He insisted that every people had the right to the government of their choice.

Speaking further, Mr. Fitzgerald opposed annexation on the grounds that an injurious labor element will be brought into competition with American laborers.

Supporting the resolution, Mr. Berry, democrat, of Kentucky, devoted much of his time to show that annexation was in line with democratic policy. He reviewed the territorial additions to the original, to show that practically all had been made by democrats. He quoted Jefferson, Pierce, Marcy, Buchanan, Bayard and other democrats to support his contention that democratic history warranted present democratic support of annexation.

Mr. Berry desired to speak of the Philippines situation and while not advocating the retention of the islands, he declared the United States should brook no interference upon the part of Germany as was intimated as being likely, and said if Germany should attempt to defeat any rights belonging to America, then this country with 158 ships in commission and 75,000,000 people would be ready to respond to the demands for resenting interference. Mr. Berry's remarks in this connection were applauded generally.

Proceeding he advocated the early construction of the Nicaragua canal, and added the importance of its control as an additional argument for annexation. During his speech he referred to the democratic caucus action and declared his independence of any attempt to control his action upon the pending question.

This brought several protests from democrats, denying that any such attempt had been made.

Another incident out of the ordinary occurred when in replying to a remark of Mr. Clark, democrat, of Missouri, relative to the national immoral dance of Hawaii and statesmen who had seen it, Mr. Berry said he had witnessed the dance while in Hawaii and more immoral performances could be seen nightly in Washington theaters. Later when Mr. Rhea, democrat, of Kentucky, was speaking upon Hawaiian immorality Mr. Berry interrupted to assert vigorously "there is more immorality in this city south of Pennsylvania avenue than in all Honolulu."

"Were I an American representative," responded Mr. Rhea, "and knew that to be true I would blush to say it."

Mr. Rhea argued chiefly the sin, idolatry and disease in Hawaii in opposition to the pending resolutions.

IN THE SENATE.

WASHINGTON, June 15.—After the transaction of some routine business today, the senate under a special order began the consideration of bills on the private pension calendar.

AT CAMP THOMAS.

The Battery Boys Do Not Expect Orders for Some Time.

A Correspondent Tells of Life in the Hospital—A Heavy Rain—Incidents of Camp Life.

THE SENTINEL is in receipt of the following from its correspondent at Camp Thomas:

HEADQUARTERS TWENTY-EIGHTH LIGHT BAT., IND. VOL.
CHICKAMAUGA PARK, GA.,
June 13, 1898.

Editor SENTINEL:

Your correspondent has just returned to company quarters after spending a week in the brigade hospital, which accounts for the absence of letters last week.

A week in an army hospital permits some interesting observations. During last week there was quite a variety of patients brought in. One of our men who had gone out with a crowd of soldiers to take a Sunday dinner at a country home, was taken suddenly ill and had to remain at the farm house until the next day when the ambulance wagon went out after him. He was up and back to his quarters within a day or two, however.

A member of the Ohio artillery was down at Lytle Station with a team of mules, and while loading up the wagon the mules started to run away The driver ran and caught hold the reins and stopped the team, but the mule he had hold of raised up and struck him squarely on the chest just a little above the heart. The driver showed great pluck by still holding onto the lines until he had quieted the team, and some men who were standing by ran up and relieved him

While there were no very serious accidents during the week, yet there was enough work to keep the corps pretty busy.

The treatment in the hospital is very good and the dread one has for being taken there soon vanishes after he is placed on a comfortable cot, with real springs on it and a real pillow on which to lay the head In stomach and bowel troubles the patient is dieted on malted milk until he is strong enough to take solid food. The surgeon's tent is within speaking distance of the hospital tent and his services can be had at almost any hour The hospital we have for our use is the brigade hospital. In cases of very serious illness the patient is removed to the large divisional hospital. At present there is only one of our men in the hospital, Andrew McMiller, who has had quite a long siege of it. At last reports he was improving nicely.

Last night saw many changes in the appearance of our camp quarters. We now have packed away in the rear of our tents four of the very latest model breech-loading 3 2 guns and four caissons, and on the pole of each is nicely laid the harness, placed in such position that each driver can pick up his own harness without any difficulty.

Every morning now, at the drill hour, each sergeant takes his section out and gives them a "school" on the mechanism and manapulation of the piece. From now on the drills will be more interesting, being the standing gun and the mounted drills. Up to this time the men have been drilled only in the foot movements, and the change of drill will be something entirely new to a large number of the boys.

Yesterday brought a blessing from above in the way of a heavy downpour of rain. A rain came up in the morning and laid the dust. Again in the afternoon about 3 o'clock it began raining, and kept it up until after 7 o'clock. It came down in torrents and flooded everything. Even some of the tents that that were apparently rain proof were full of water. Some of the soldiers had their bed ticks so thoroughly soaked that they could not sleep on them, but had to hustle around and provide something dry to lay on for the night. Some built raised platforms under the pieces and caissons, which were covered with large heavy canvasses, and slept in the open air, which after the rain was cool and refreshing.

This morning ticks were seen hanging on the lines drying in the sun and everything was on the cleaning up order. Everybody is well and no bad effects of the rain have materialized. The boys are not expecting an order to move for some time.

NOTES.

Corporal Charles C. Mungen is celebrating his birthday anniversary today and he says this is the first time he ever celebrated a birthday in time of war.

Corporal John F. Vordermark is assisting in the mail car at Lytle station whenever there is a rush.

A base ball game yesterday between Fort Wayne and St. Louis was stopped in the second inning on account of rain. The score was in favor of Fort Wayne, 5 to 0.

Sergeant Henry T. McNutt says he has no shadow of rheumatism, the rumor to the contrary notwithstanding.

Private Harry Edgar captured three large turtles one day last week and turned them over to the cook. He says that's the last he saw of them. Corporal William Briggemann says he knows where the shells are.

There will be a meeting tonight at the Ohio battery headquarters to discuss the forming of a field Y. M. C. A. Several associations are now in running order in different parts of the camp and all are well patronized.

Private William Bierbaum spends all his spare time writing letters home, and even wants more time for writing.

RACCOON AND DOG.

Desperate Fight Between Them in Lakeside.

Pioneer scenes were reproduced in Lakeside last evening. A large and fierce raccoon appeared in the yard surrounding the residence of Mr. and Mrs. C. M. Comparet, on Edgewater avenue, and gave battle to the large house dog. Hostilities continued for an hour, during which the dog and 'coon tumbled over each other, up one side of the dyke and down the other. Finally the combatants were separated by two ladies, who lassoed the 'coon and then drove the dog away The raccoon is now confined in a store box. Where he came from, no one knows, but it is likely that he found his way up the river from the woods a mile or two east of the city. He is a very vicious fellow.

REUBEN S. PATTERSON

Calls attention to four special bargains. The blue serge suit at $10. The unlined serge coat and vest, in blue, black, gray or tan, at $5.00. The Madras shirt, for white collar, at 50c, and the 50c balbriggan underwear that would be good value at twice the money.

WILL GO TO TAMPA.

Fifteen Regiments Soon to Leave Camp Thomas.

Young Volunteers Anxious to See Service.

Not Known What Regiments Will Go South.

Most of the Regiments Are Now Thoroughly Equipped—Regulars and Volunteers Fight.

CHICKAMAUGA, National park, Ga., June 15.—The report that fifteen regiments are to leave Camp Thomas for Tampa during the next few days is the main subject of interest in the camp today, and it is being eagerly discussed by both officers and men.

It is impossible to confirm the report as the army officials refuse to discuss it but nearly every man in camp now believes it.

When the news of a move gained circulation there was general rejoicing among the soldiers. The greater portion of them have been very anxious to go to the front, and now that there is a fair prospect of a large number of regiments leaving, the boys are all anxious to know just who will be included in the order.

This is not known and will not be made public until Major General Brook issues an order.

It is understood that the Eighth, Ninth, Twelfth and Fourteenth New York, Third and Fifth Illinois, First, Fourth, Fifth, Ninth and Sixteenth Pennsylvania, Fourth Ohio and Eighth Massachusetts will be among the first to be ordered to the front. In addition to these regiments there are many others which lack only a small amount of equipment and which could be equipped for operation without much trouble.

The rains which have fallen since Sunday have added materially to the comfort of army life and was afforded an excellent opportunity for active work.

Today every regiment is drilling and manouvering and the field is covered with them.

VOLUNTEERS AND REGULARS FIGHT.

WASHINGTON, June 15.—A special to the Post from Old Point Comfort, Va., says that a hot fight occurred last night in the streets of the village of Phoebus between Maryland volunteers and regulars from Fort Monroe. Officers from the volunteers and regulars were summoned hastily and ended the fighting after about seventy-five prisoners were taken and sent to the guard house. It is said about twenty men received injuries, none of them serious, during the melee.

NEW LODGE.

Another Branch of the Sexennual League in the City.

Fort Wayne lodge, No. 527, Sexennual league, is the name of a new branch of the order which was instituted in this city a few evenings ago. The officers are:

Past President—Henry McDole.
President—Emmett Dunfee.
Vice President—Frederick Conrady.
Secretary and Treasurer—Mrs. Mary A. Singmaster.
Marshal—Mrs. Lucy McDole.
Guardian—George Meyers.
Sentinel—Jacob Walschmidt.
Chaplain—Mrs. Lillian Dunfee.
Medical Examiner—Dr. Charles V. Leedy.
Trustees—Dr. C. V. Leedy, Adeline Waldschmidt and Frederick Conrady.

This lodge starts out with a large list of charter members and under other favorable auspices. It was instituted by State Deputy Edward Fleisher, who in an address remarked upon the favorable conditions attending its organization and institution. The Sexennial league is an insurance as well as benevolent order. There has been a lodge in existence in this city for some time, and its membership has reached such proportions that another lodge was a necessity, hence the organization of No. 527.

BIG SUMS OF MONEY.

Auditor and Treasurer Make Semi-Annual Settlements.

The Cash Divided Among the County, State, Township and City Funds—Court Notes.

County Auditor Bobilya and Country Treasurer Hunter taday made their semi-annual settlement. There was a total received of $317,306.68. Of this sum the city gets for general purposes, $115,060.80; state, $73,359.36; county, $72,697.23; court house, $13,315.23; general gravel road, $6,768.23; city library, $3,538.73; compulsory education, $1,095.54. The balance goes to the several townships and the city school fund. The levy for the city library and the compulsory education funds was fixed by the school trustees. Treasurer Hunter will today make his report to Comptroller Berghoff and will settle with the state treasurer next week

NOTES

The last will and testament of the late Daniel B. Hays, of Lafayette, was today filed for probate. He leaves all his property to his wife and children.

In the circuit court witnesses in the Decatur electric light case are still being examined.

Hester E. Ward asks for a decree of separartion from Marion S. Ward, who is charged with being abusive, with questioning her virtue, and with being an habitual drunkard.

The board of commissioners and County Auditor Bobilya visited the county asylum yesterday and they praise the institution and the farm highly.

Jennie C. Rowe asks for a decree of divorce from Oscar J. Rowe. The complaint is penned by B. F. Harper.

LICENSED TO WED.

T. Markham Hennessey and Cora C. Whitney.

Frederick H. Kammeier and Louisa Rodenbeck.

Edward R. Johnstone and Olive Lehman.

Frederick D. Bieke and Rickey Sophia Ketker.

LOCAL LINES.

Mrs. Jane Chinworth, of Spy Run, is quite ill.

Charles Reuss and Robert Fox returned to Notre Dame today.

Mrs. W. H. Meyers is entertaining Mr. Meyers' mother, of Columbia City.

The New Haven Oil and Gas company will tomorrow morning start drills to work on well No. 2.

Frank Hill will resign his position in Wolf & Dessauer's dry goods store and enlist with the battery.

Friday night next the local branch of the Sons of American Revolution will celebrate the battle of Bunker Hill.

The members of the senior class of the High school were tendered an informal "at home" by Philip Bursley this afternoon.

A telegram from Washington announces that the salary of Postmaster Page, of this city, has been increased from $3,200 to $3,300.

Mrs. Ward, of North Calhoun street, was pleasantly surprised by a number of friends last evening in honor of her birthday anniversary.

Mr. and Mrs. P. A. Tyler and son, Robert, left this afternoon for St. Paul, Minn., where they will visit for two weeks with Mrs. Tyler's brother.

There were three prisoners, two vags and one train climber, in police court this morning. The vags were sent to jail and the climber ordered to leave the city.

Mrs. Shopman will entertain the ladies of the Rathbone Thimble circle and their friends to ice cream and cake, at the K. of P. hall on East Berry street, next Saturday evening.

The council committee of the whole will meet in the council chamber tomorrow (Thursday) evening to hear remonstrances against the proposed annexation ordinances.

Fred Oetting has received from Germany the sad intelligence of the death of his sister, Mrs. Sophia Speckman. Two sisters, Mrs. Peter Henscill and Mrs. Fred Fehling, were on the ocean en route to Germany when Mrs. Speckman died, and they arrived too late to even attend the funeral.

Captain W. F. Ranke has scores of applications for places in the battery and will have no trouble in securing his quota of the increase. Dr. Ranke is making examinations every day and already twelve men have passed and will probably leave for Chickamauga this afternoon. The recruiting office is in the rooms above Freese & Ranke's drug store.

Robison park is giving a good theatrical performance this week and the citizens are showing their appreciation by liberal patronage. Last night nearly every seat in the reserved section was occupied. A noticeable feature of the patronage is the refinement of the audiences, which compare favorably with those to be found at the first-class entertainments at the Temple.

GRAPE-NUTS.

A New and Highly Nutritious Food.

The odd sounding name is used to designate a peculiar food, made not exactly in the shape of nuts, but having a pleasant, nutty flavor and crisp brittleness that makes them a charming favorite with the palate.

Of yet more value than the taste is the food value of Grape Nuts. They are largely composed of grape-sugar, (your dictionary can tell you about that) and those who use them will find the morning meal has not only been pleasant, but has been quickly and easily digested; for grape-sugar is an article produced in the human body at one stage of the digestion of food, and is at once ready for transformation into good healthy blood and nourishment.

It should not be understood that the grape-sugar, of which Grape-Nuts is made, has been produced in the human body. But this grape-sugar is made by much the same process as the body employes, and is produced by natural treatment of grains without any foreign substance whatever. It is made by the Postum Co., at Battle Creek, Mich. The result is perhaps the most highly nutritious food ever produced.

Grocers keep Grape-Nuts.

TERRIBLE BREAKING OUT

CURED BY CUTICURA

I was afflicted with a terrible breaking out. I was treated by the very best physicians, who pronounced it blood poison, but it got worse. I was suffering untold agony, and finally had to give up work. CUTICURA REMEDIES were suggested, which I immediately procured. From the first, I experienced a soothing relief, but notwithstanding my intense pain. I improved right along till at last I was entirely cured, and not a sign on my body anywhere indicating that anything had ever been the matter with me.

GERMANY TO OPPOSE

Will Put Forth a Strong Hand at Manila.

Will Prevent Debarkation of American Troops.

German Consul Has Instructions From Berlin.

The United States Forces Must be Sufficient to Guarantee the Safety of Germans.

LONDON, June 15.—The Star today reiterates the story that Emperor William, of Germany, has ordered the German consul at Manila to oppose the debarkation of American troops unless in sufficient force to maintain order and protect the Germans. The Star adds that a notification to this effect has been officially given to the United States embassy At Berlin and to Secretary Day at Washington.

Admiral Deitrichs, according to the Star, has 3,100 troops and he could disembark 1,500 with two batteries of artillery, for the partial occupation of Manila.

Continuing, the Star says: "Germany is not likely to have taken such a grave step without securing the adhesion of other powers interested in the far east, namely Russia, Japan and England. They are certainly hostile to Germany's project, but it is not thought likely that they will raise objections and we may soon have very important news from Manila."

SPAIN NOW LOOKS TO RUSSIA FOR AID.

LONDON, June 15.—A special dispatch from Madrid published this afternoon, purports to give the substance of an interview with Senor Sagasta, the Spanish premier, who is quoted as saying that yesterday's rise on the bourse was due to telegrams advising leading financiers that Russia has taken steps to intervene shortly in the settlement of the Philippine question. The premier added, however, that personally he had no knowledge of such intervention.

GERMANY WILL NOT INTERVENE.

WASHINGTON, June 15.—The state department has been officially advised that reports that Germany would take an issue in the Philippines are unwarranted. German ships would be on hand at Manila to afford protection to German subjects and property but Germany had no thought of intervention.

THIRD EXPEDITION TO SAIL SATURDAY.

SAN FRANCISCO, June 15.—It is stated semi-officially at Camp Merritt that the third expedition for Manila will sail from this port on Saturday week, and that the expedition will be under the command of Brigadier General King.

The make-up of the expedition will, in all probability, consist of the two Idaho battalions, the Fifty-first Iowa regiment, remaining detachment of the corps of engineers, First Montana regiment, Seventh California regiment and the first Tennessee regiment.

STARVATION TAPS FOR ADMITTANCE.

(Copyright, 1898 by the Associated Press.)

OFF SANTIAGO DE CUBA, Saturday, June 11, 4 p. m., per the Associated Press dispatch boat Wanda, via. Kingston, Jamaica, Sunday, June 12, 7 p. m.—Rear Admiral Sampson and Commodore Schley, with their combined forces, are slowly but surely placing such a net work about Santiago de Cuba and are cutting off so effectually every source of outside aid, that within a short time starvation's tapping will give way to death's solid knock for admittance at the doors of the ill-fated place.

Within three days three separate sources of supplies and reinforcement have been cut off, and Santiago de Cuba is now isolated from the world and is now down to famine rations.

When Admiral Cervera arrived at Santiago de Cuba with his fleet the people there welcomed him for the relief they thought he would bring, but instead of food he brought them 600 more men to feed.

The only aid he had to offer was the tons of ammunition in his ships' magazines.

A map of the harbor furnished today by spies shows that, after the bombardment of the harbor forts by Commodore Schley on Tuesday, May 31, the Spanish cruiser Reina Mercedes, which was disabled was towed into the bay behind the Socapa battery, where she lies with two torpedo boats. Half a mile further up, under the lee of Cayo Smith and the mortar batteries, is the Vizcaya, commanding with her broadsides the two narrow entrances to the east and west of Cayo Smith. Half a mile north and at the gate of the third narrow entrance lies the Almirante Oquendo, and half a mile to the northeast are the Cristobal Colon and the Maria Teresa.

The ships are about a mile and a half from the city proper, shallow water forbidding them to go much closer.

The sunken collier Merrimac is directly in the narrow part of the channel.

BRITISH STEAMER PRIZE AT KEY WEST.

KEY WEST, Fla., June 15.—The British steamer Twickenham, captured off Kingston on June 10 by the auxiliary cruiser St. Louis, arrived here today in charge of a prize crew. She has on board 3,000 tons of coal and one passenger who is supposed to be an employe of the Spanish government.

DIPLOMAT SHOT.

Count Arco-Valley, of the German Embassy, Injured.

In London a Stranger Fires Two Bullets at Him—Would-be Assassin Arrested.

LONDON, June 15.—While the first secretary of the German embassy here, Count von Arco-Valley, was emerging from the embassy this evening a stranger fired two shots from a revolver at him. One of the bullets entered the secretary's back, but the wound is not believed to be fatal.

His assailant was arrested after firing at and missing a policeman. The motive which prompted the man to attempt the life of Count Arco-Valley is not known.

DEAL TRANSFERRED.

P. D. Armour Takes Possession of the Leiter Corner.

The Napoleon of the Grain Pit Turns Over His Holdings to the Big Elevator Man.

CHICAGO, June 15.—Arrangements for the closing of the Leiter deal have been completed. Final papers were placed before Joseph Leiter today, and 7,000,000 bushels of choice cash wheat were consigned to P. D. Armour, who will henceforth control all the Leiter holdings.

Armour has already begun to dispose of his holdings, and unless the coming crop is harvested sooner than anticipated it seems likely that the immense line of wheat in the northwest will be consumed.

It is stated that Leiter will not lose as much as generally believed. Armour's assumption of the burden is said to have meant at least $2,000,000 for Leiter. That much loss would be incurred if the immense line of wheat had to be merchandised by trustees, with the probability of a declining market. The loans made Leiter by the local banks aggregate nearly $7,000,000. Each bank was careful to protect itself with margins that would insure against loss. Interviews with a number of the bankers interested show that they are all satisfied with the transfer of the deal to Armour.

Another Attachment Against Leiter.

NEW YORK, June 15.—The sheriff has received another attachment against Joseph Leiter, of Chicago, in favor of Thames & Mersey Marine Insurance company for $81,915. The attachment was granted by Justice Daly of the supreme court.

CABINET RESIGNS.

Culmination of the Ministerial Crisis in France.

PARIS, June 15.—The cabinet met this morning and reviewed the situation. The ministers reassembled at 2:30 p. m., when M. Meline handed President Faure the resignation of the whole cabinet, which the president accepted, while requesting the ministers to continue the direction of affairs until their successors are named.

It is expected that M. Ribot, the former premier and minister of finance, will be invited to form a new ministry, and it is considered probable that M. Dupuy, who was premier of the cabinet which preceded that of M. Ribot, will join the new ministry.

Death of Mrs. Bulger.

At 10:30 this morning, at her home, No. 176 Griffith street, occurred the death of Mrs. Patrick Bulger, aged sixty years. Mrs. Bulger had been ailing for a long time and her death was not unexpected. She leaves, besides a husband, six children, viz: Charles J., of Hillsdale, Mich.; John H., George J., Ida E., Emma A. and Nellie M., of this city. Mrs. Bulger was the sister of the late John W. Ryan. She was a member of the Catholic church and of the Rosary Sodality of the Cathedral. The funeral arrangements have not been completed; they will be announced tomorrow.

The International Business college entertainment tonight will be the last one of the series. Prof. Wm. Heine, ventriloquist; Frederick Gresham, the favorite colored basso; Willie, the black Herrmann, and Mr. Arnold, descriptive vocalist, with Renfrow's Pathfinders last week at the Temple, will be the features.

Arthur, the nineteen-weeks-old child of Mr. and Mrs. Arthur Wieland, of No. 38 Watkins street, died this morning of brain fever. The funeral will occur Thursday morning at 10 o'clock.

CUBANS CO-OPERATE

Admiral Sampson Has Been Reinforced by Them.

Several Hundred Natives Now With Americans.

Town of Aserraderos Has Been Occupied.

United States Forces at Guantanamo In a Very Satisfactory Condition—Sampson's Report.

GUANTANAMO BAY, Tuesday, June 14.—6 p. m.—The American marines and Cubans today completely routed a force of 400 Spaniards. One American was slightly wounded. The Spaniards lost about forty killed.

SAN FRANCISCO, June 15.—The second fleet of transports weighed anchor about 1 o'clock and are now on their way to Manila.

WASHINGTON, D. C., June 15.—The navy department posted the following bulletin:

"Admiral Sampson reports that he has been reinforced by several hundred Cubans and that our forces at Guantanamo are in a very satisfactory condition. The town of Aserraderos has been occupied by the troops under General Rabi. The men under General Garcia are co-operating with the American forces."

TROOPS SAILED AT DAYLIGHT.

TAMPA, Fla., June 15.—The hospital steamship Olivette returned to Port Tampa last night remaining here until 1 o'clock, coaling and receiving her first touch of white paint, symbolic of her peaceful mission.

The warlike equipments of the correspondents on board were collected and put on another vessel, the rules not permitting arms on hospital ships. The Olivette, with the fleet, got away at daylight. The idea of stopping at Key West has been abandoned.

DEEDS OF DARING PERFORMED IN CUBA.

(Copyrighted, 1898, by the Associated Press.)

OFF SANTIAGO DE CUBA, Saturday, June 11, 4 P. M., via Kingston, Jamaica, Sunday, June 12, 7 P. M.—Since the establishment of the blockade several interesting and daring expeditions have been made in the enemy's country to discover the actual condition of affairs in Santiago de Cuba. It is not an easy matter to get near the city these days. About eight thousand Spanish soldiers and two thousand home guard troops cover every roadway about the place, and General Pando, the Spanish military commander, is very active, although his operations are limited by the mountains surrounding the place, which are full of insurgents.

On Saturday, a week ago, June 4, the converted lighthouse boat Suwanee, commanded by Lieutenant Commander Daniel Delehanty, arrived off Santiago de Cuba. She had on board about 70,000 rounds of ammunition, 5,000 rifles, 1,000 carbines, 2,000 machetes, and hundreds of pounds of bread, bacon and other provisions. With the aid of a Cuban pilot picked up by Commodore Schley, she landed this stuff in two days besides taking an active part in the bombardment of the forts at Santiago de Cuba.

The landing was effected about twelve miles to the westward of Santiago and in the presence of 500 insurgents. About 100 more insurgents were on guard in the mountains and in the passes. The ammunition and food, with the arms, have therefore put the insurgents in excellent shape to prevent the Spaniards from getting provisions from the outside through the island itself.

It is believed that the arming of a force of insurgents has assisted in cutting off one part of the Spanish army from another.

Tuesday, June 7, while working near Coserazere, twelve miles from Santiago de Cuba, Lieutenant Commander Delhanty saw two sloops trying to run away up the river Aserazere. He fired at them and they were run ashore and deserted.

Later a boat's crew from the Sauwanee captured them. Each of the sloops was provided with a Spanish flag and one of them had on board a heliograph for signalling purposes. The flag and the heliograph were taken as spoils of war. One of the sloops was presented to the Cubans, and the other, which already had a few holes in it, was sunk by shots from the Suawanee.

THE TEMERARIO OUT OF BUSINESS.

ASSUMPTION, Paraguay, June 15.—Via Galveston, Texas, June 15.—The commission appointed by the government of Paraguay, at the instance of the United States consul, to inquire into the exact condition of the Spanish torpedo boat Temerario, now in these waters, reports that it is impossible for her to put to sea. The commission also resolved not to place any limit upon the time in which she is to repair, ascertaining that portions of her machinery are wanting and must be shipped to her from abroad.

MARINES HOLD FORT AT GUANTANAMO BAY.

WASHINGTON, D. C., June 15.—With General Shafter's expedition on the way to Santiago and the military branch busily engaged in preparing the expedition to be sent against Porto Rico, there is now nothing to do for the navy but to wait patiently until the troops arrive at Santiago.

So far only one report has come from Sampson telling of engagements between the marines at Crest Heights and the Spanish troops in the chapparal and no mention has yet been made officially of any of the subsequent night attacks upon the marines.

In his dispatch of Monday night, Admiral Sampson spoke of the first affair as an attack upon the American outposts and the naval officers here feel that because he has made no further report that the subsequent engagements described by the press correspondents have been of the same character.

It is realized at the department that the situation of the marines is a very uncomfortable one, suffering as they are from harrassing night attacks that prevent them from securing much needed rest and unable because of the character of the country and the nature of the tactics adopted by the enemy from getting a fair chance at them.

However, the department is assured that there is no real danger in the situation, because if seriously threatened by an overwhelming force the marines with very short notice can retire aboard the American warships, where they would be in perfect safety. It is mainly sentiment, embodied in a determination to keep the American flag flying over the place where it was first planted, and thus retaining for the navy the honor of obtaining the first position on shore, that keeps the marines in camp in Guantanamo bay.

It is true, however, that an important secondary purpose will be served by their presence, as the place will afford a proper cable station when the French cable between Hayti and Santiago is spliced.

It is not impossible to operate a cable from a ship in the harbor, but the communication in such cases is precarious and undesirable.

Word has come to the navy department that the St. Paul has left Cape Haytien with operators and instruments for the cable and it will not be surprising if Sampson opens direct communication with the United States via Hayti at almost any moment. What threatened to be an international difficulty over the operation of the cable under such conditions has been removed and it is said that the French cable company owning the line has been most obliging in acceding to the request of our government.

Although Tampa dispatches said that the transport fleet was going to double Cape Antonio, the western extremity of Cuba, in proceeding to Santiago, the naval officials do not believe that is the case, for the reason that the western route is fully 200 miles longer than the route by way of Cape Maysi, and in addition the transports would have to fight the gulf stream until they had got clear around Cape Antonio.

On the eastern course the ships would have the full benefit of the favorable current until they reached Cape Maysi, about two-thirds of the distance to be traveled. It is believed here that the idea that the ships were westward bound grew out of the circumstance that they headed for the Tortugas, the point selected for the fleet of transports to pick up the heavier vessels on the convoy squadron, such as the Indiana, which has not been able to get within ten miles of Key West, because of the lack of water. The officials see no reason to change their original estimate that the troops will be off Santiago Friday.

DENIAL OF ORDER TO MOVE TROOPS.

WASHINGTON, June 15.—An authoritative statement at the war department today contradicts the reports from Chickamauga that 15,000 troops have been ordered to move at once. It is said that the orders sent to the commanding officers at Chickamauga direct the equipping and arming of the troops at the earliest possible moment. This, however, is in line with the general policy of hurrying up preparations all along the line. The order did not suggest any movement of 15,000 men. It may be naturally inferred that these orders to expedite the equipment will lead up to subsequent orders for the movement of the troops.

Such orders, however, are for the future to bring forth. In pursuance of the order to equip General Brooke sent a dispatch to the war department today, asking as to the whereabouts of ordnance stores essential for this equipment. The stores are on the way, and although there has been considerable delay, the officers believe this will be straightened out in a few days, and that the work of equipment will be carried out.

Mrs. Lillie Buckelhaupt and little daughter, Frieda, arrived here from Quincy, Ill., on an extended visit to Prof. and Mrs. H. R. Charles, of No. 155 Oakland street.

DEBATE GETS WARM

Newlands' Resolution Still Holds the House.

Annexation of the Sandwich Islands Discussed.

Moral Phases of the Question to the Fore.

Mr. Berry Declares There is More Immorality in Washington Than in Honolulu.

WASHINGTON, June 15.—The house met today at 10 o'clock to resume the Hawaiian debate. Sixteen members were in attendance. The senate bills granting American register to the ships Specialist and Unionist were passed.

Mr. Fitzgerald, democrat, of Massachusetts, spoke against the Newlands resolution. In the course of his speech he emphasized the failure of the majority of Hawaiians to express their desire relative to annexation. He insisted that every people had the right to the government of their choice.

Speaking further, Mr. Fitzgerald opposed annexation on the grounds that an injurious labor element will be brought into competition with American laborers.

Supporting the resolution, Mr. Berry, democrat, of Kentucky, devoted much of his time to show that annexation was in line with democratic policy. He reviewed the territorial additions to the original, to show that practically all had been made by democrats. He quoted Jefferson, Pierce, Marcy, Buchanan, Bayard and other democrats to support his contention that democratic history warranted present democratic support of annexation.

Mr. Berry desired to speak of the Philippines situation and while not advocating the retention of the islands, he declared the United States should brook no interference upon the part of Germany as was intimated as being likely, and said if Germany should attempt to defeat any rights belonging to America, then this country with 156 ships in commission and 75,000,000 people would be ready to respond to the demands for resenting interference. Mr. Berry's remarks in this connection were applauded generally.

Proceeding he advocated the early construction of the Nicaragua canal, and added the importance of its control as an additional argument for annexation. During his speech he referred to the democratic caucus action and declared his independence of any attempt to control his action upon the pending question.

This brought several protests from democrats, denying that any such attempt had been made.

Another incident out of the ordinary occurred when in replying to a remark of Mr. Clark, democrat, of Missouri, relative to the national immoral dance of Hawaii and statesmen who had seen it, Mr. Berry said he had witnessed the dance while in Hawaii and more immoral performances could be seen nightly in Washington theaters. Later when Mr. Rhea, democrat, of Kentucky, was speaking upon Hawaiian immorality Mr. Berry interrupted to assert vigorously "there is more immorality in this city south of Pennsylvania avenue than in all Honolulu."

"Were I an American representative," responded Mr. Rhea, "and knew that to be true I would blush to say it."

Mr. Rhea argued chiefly the sin, idolatry and disease in Hawaii in opposition to the pending resolutions.

IN THE SENATE.

WASHINGTON, June 15.—After the transaction of some routine business today, the senate under a special order began the consideration of bills on the private pension calendar.

AT CAMP THOMAS.

The Battery Boys Do Not Expect Orders for Some Time.

A Correspondent Tells of Life in the Hospital—A Heavy Rain—Incidents of Camp Life.

THE SENTINEL is in receipt of the following from its correspondent at Camp Thomas:

HEADQUARTERS TWENTY-EIGHTH LIGHT BAT., IND. VOL.
CHICKAMAUGA PARK, GA., June 13, 1898.

Editor SENTINEL:

Your correspondent has just returned to company quarters after spending a week in the brigade hospital, which accounts for the absence of letters last week.

A week in an army hospital permits some interesting observations. During last week there was quite a variety of patients brought in. One of our men who had gone out with a crowd of soldiers to take a Sunday dinner at a country home, was taken suddenly ill and had to remain at the farm house until the next day when the ambulance wagon went out after him. He was up and back to his quarters within a day or two, however.

A member of the Ohio artillery was down at Lytle Station with a team of mules, and while loading up the wagon the mules started to run away. The driver ran and caught hold the reins and stopped the team, but the mule he had hold of raised up and struck him squarely on the chest just a little above the heart. The driver showed great pluck by still holding onto the lines until he had quieted the team, and some men who were standing by ran up and relieved him.

While there were no very serious accidents during the week, yet there was enough work to keep the corps pretty busy.

The treatment in the hospital is very good and the dread one has for being taken there soon vanishes after he is placed on a comfortable cot, with real springs on it and a real pillow on which to lay the head. In stomach and bowel troubles the patient is dieted on malted milk until he is strong enough to take solid food. The surgeon's tent is within speaking distance of the hospital tent and his services can be had at almost any hour. The hospital we have for our use is the brigade hospital. In cases of very serious illness the patient is removed to the large divisional hospital. At present there is only one of our men in the hospital, Andrew McMiller, who has had quite a long siege of it. At last reports he was improving nicely.

Last night saw many changes in the appearance of our camp quarters. We now have packed away in the rear of our tents four of the very latest model breech-loading 3.2 guns and four caissons, and on the pole of each is nicely laid the harness, placed in such position that each driver can pick up his own harness without any difficulty.

Every morning now, at the drill hour, each sergeant takes his section out and gives them a "school" on the mechanism and manipulation of the piece. From now on the drills will be more interesting, being the standing gun and the mounted drills. Up to this time the men have been drilled only in the foot movements, and the change of drill will be something entirely new to a large number of the boys.

Yesterday brought a blessing from above in the way of a heavy downpour of rain. A rain came up in the morning and laid the dust. Again in the afternoon about 3 o'clock it began raining, and kept it up until after 7 o'clock. It came down in torrents and flooded everything. Even some of the tents that that were apparently rain proof were full of water. Some of the soldiers had their bed ticks so thoroughly soaked that they could not sleep on them, but had to hustle around and provide something dry to lay on for the night. Some built raised platforms under the pieces and caissons, which were covered with large heavy canvasses, and slept in the open air, which after the rain was cool and refreshing.

This morning ticks were seen hanging on the lines drying in the sun and everything was on the cleaning up order. Everybody is well and no bad effects of the rain have materialized. The boys are not expecting an order to move for some time.

NOTES.

Corporal Charles G. Mungen is celebrating his birthday anniversary today and he says this is the first time he ever celebrated a birthday in time of war.

Corporal John F. Vordermark is assisting in the mail car at Lytle station whenever there is a rush.

A base ball game yesterday between Fort Wayne and St. Louis was stopped in the second inning on account of rain. The score was in favor of Fort Wayne, 5 to 0.

Sergeant Henry T. McNutt says he has no shadow of rheumatism, the rumor to the contrary notwithstanding.

Private Harry Edgar captured three large turtles one day last week and turned them over to the cook. He says that's the last he saw of them. Corporal William Briggemann says he knows where the shells are.

There will be a meeting tonight at the Ohio battery headquarters to discuss the forming of a field Y. M. C. A. Several associations are now in running order in different parts of the camp and all are well patronized.

Private William Bierbaum spends all his spare time writing letters home, and even wants more time for writing.

RACCOON AND DOG.

Desperate Fight Between Them in Lakeside.

Pioneer scenes were reproduced in Lakeside last evening. A large and fierce raccoon appeared in the yard surrounding the residence of Mr. and Mrs. C. M. Comparet, on Edgewater avenue, and gave battle to the large house dog. Hostilities continued for an hour, during which the dog and 'coon tumbled over each other, up one side of the dyke and down the other. Finally the combatants were separated by two ladies, who lassoed the 'coon and then drove the dog away. The raccoon is now confined in a store box. Where he came from, no one knows, but it is likely that he found his way up the river from the woods a mile or two east of the city. He is a very vicious fellow.

REUBEN S. PATTERSON

Calls attention to four special bargains. The blue serge suit at $10. The unlined serge coat and vest, in blue, black, gray or tan, at $5.00. The Madras shirt, for white collar, at 50c, and the 50c balbriggan underwear that would be good value at twice the money.

WILL GO TO TAMPA.

Fifteen Regiments Soon to Leave Camp Thomas.

Young Volunteers Anxious to See Service.

Not Known What Regiments Will Go South.

Most of the Regiments Are Now Thoroughly Equipped—Regulars and Volunteers Fight.

CHICKAMAUGA, National park, Ga., June 15.—The report that fifteen regiments are to leave Camp Thomas for Tampa during the next few days is the main subject of interest in the camp today, and it is being eagerly discussed by both officers and men.

It is impossible to confirm the report as the army officials refuse to discuss it but nearly every man in camp now believes it.

When the news of a move gained circulation there was general rejoicing among the soldiers. The greater portion of them have been very anxious to go to the front, and now that there is a fair prospect of a large number of regiments leaving, the boys are all anxious to know just who will be included in the order.

This is not known and will not be made public until Major General Brook issues an order.

It is understood that the Eighth, Ninth, Twelfth and Fourteenth New York, Third and Fifth Illinois, First, Fourth, Fifth, Ninth and Sixteenth Pennsylvania, Fourth Ohio and Eighth Massachusetts will be among the first to be ordered to the front. In addition to these regiments there are many others which lack only a small amount of equipment and which could be equipped for operation without much trouble.

The rains which have fallen since Sunday have added materially to the comfort of army life and was afforded an excellent opportunity for active work.

Today every regiment is drilling and manoeuvering and the field is covered with them.

VOLUNTEERS AND REGULARS FIGHT.

WASHINGTON, June 15.—A special to the Post from Old Point Comfort, Va., says that a hot fight occurred last night in the streets of the village of Phoebus between Maryland volunteers and regulars from Fort Monroe. Officers from the volunteers and regulars were summoned hastily and ended the fighting after about seventy-five prisoners were taken and sent to the guard house. It is said about twenty men received injuries, none of them serious, during the melee.

NEW LODGE.

Another Branch of the Sexennial League in the City.

Fort Wayne lodge, No. 527, Sexennial league, is the name of a new branch of the order which was instituted in this city a few evenings ago. The officers are:

Past President—Henry McDole.
President—Emmett Dunfee.
Vice President—Frederick Conrady.
Secretary and Treasurer—Mrs. Mary A. Singmaster.
Marshal—Mrs. Lucy McDole.
Guardian—George Meyers.
Sentinel—Jacob Walschmidt.
Chaplain—Mrs. Lillian Dunfee.
Medical Examiner—Dr. Charles V. Leedy.
Trustees—Dr. G. V. Leedy, Adeline Waldschmidt and Frederick Conrady.

This lodge starts out with a large list of charter members and under other favorable auspices. It was instituted by State Deputy Edward Fleisher, who in an address remarked upon the favorable conditions attending its organization and institution. The Sexennial league is an insurance as well as benevolent order. There has been a lodge in existence in this city for some time, and its membership has reached such proportions that another lodge was a necessity, hence the organization of No. 527.

BIG SUMS OF MONEY.

Auditor and Treasurer Make Semi-Annual Settlements.

The Cash Divided Among the County, State, Township and City Funds—Court Notes.

County Auditor Boblya and County Treasurer Hunter today made their semi-annual settlement. There was a total received of $317,306.68. Of this sum the city gets for general purposes, $115,080.60; state, $73,352 30; county, $72,697.21; court house, $13,315.23; general gravel road, $6,768.23; city library, $3,538.73; compulsory education, $1,995.51. The balance goes to the several townships and the city school fund. The levy for the city library and the compulsory education funds was fixed by the school trustees. Treasurer Hunter will today make his report to Comptroller Berghoff and will settle with the state treasurer next week.

NOTES.

The last will and testament of the late Daniel B. Hays, of Lafayette, was today filed for probate. He leaves all his property to his wife and children.

In the circuit court witnesses in the Decatur electric light case are still being examined.

Hester E. Ward asks for a decree of separation from Marion S. Ward, who is charged with being abusive, with questioning her virtue, and with being an habitual drunkard.

The board of commissioners and County Auditor Boblya visited the county asylum yesterday and they praise the institution and the farm highly.

Jennie C. Rowe asks for a decree of divorce from Oscar J. Rowe. The complaint is penned by B. F. Harper.

Mrs. W. H. Meyers is entertaining Mr. Meyers' mother, of Columbia City.

The New-Haven Oil and Gas company will tomorrow morning start drills to work on well No. 3.

Frank Hill will resign his position in Wolf & Dessauer's dry goods store and enlist with the battery.

Friday night next the local branch of the Sons of American Revolution will celebrate the battle of Bunker Hill.

The members of the senior class of the High school were tendered an informal "at home" by Phillip Bursley this afternoon.

A telegram from Washington announces that the salary of Postmaster Page, of this city, has been increased from $3,200 to $3,300.

Mrs. Ward, of North Calhoun street, was pleasantly surprised by a number of friends last evening in honor of her birthday anniversary.

Mr. and Mrs. P. A. Tyler and son, Robert, left this afternoon for St. Paul, Minn., where they will visit for two weeks with Mrs. Tyler's brother.

There were three prisoners, two vags and one train climber, in police court this morning. The vags were sent to jail and the climber ordered to leave the city.

Mrs. Shopman will entertain the ladies of the Rathbone Thimble circle and their friends to ice cream and cake, at the K. of P. hall on East Berry street, next Saturday evening.

The council committee of the whole will meet in the council chamber tomorrow (Thursday) evening to hear remonstrances against the proposed annexation ordinances.

Fred Oetting has received from Germany the sad intelligence of the death of his sister, Mrs. Sophia Speckman. Two sisters, Mrs. Peter Hensell and Mrs. Fred Fehling, were on the ocean en route to Germany when Mrs. Speckman died, and they arrived too late to even attend the funeral.

Captain W. F. Ranke has scores of applications for places in the battery and will have no trouble in securing his quota of the increase. Dr. Ranke is making examinations every day and already twelve men have passed and will probably leave for Chickamauga this afternoon. The recruiting office is in the rooms above Freese & Ranke's drug store.

Robison park is giving a good theatrical performance this week and the citizens are showing their appreciation by liberal patronage. Last night nearly every seat in the reserved section was occupied. A noticeable feature of the patronage is the refinement of the audiences, which compare favorably with those to be found at the first-class entertainments at the Temple.

The fleet of transports bearing the Cuban invading army is as evasive as Admiral Cervera's squadron before it sailed into the bottle. It is to be hoped that the troop-fleet will not have to encounter a similar fate before it can be definitely located.

The only recent authentic advices concerning Mark Hanna relates him to an enterprise for buying of the members of the populist national committee. The information is authentic chiefly from its probability.

Count Castellane has disqualified himself for further dueling. It is in exceedingly bad form to wound an adversary in a French duel, but when it is done three times in a single combat it amounts to an outrage of all the proprieties.

The mismanagement that has marked the attempt to get an expedition embarked from Tampa to Cuba makes an imperative call for the second installment of Secretary Alger's brief in defense. There has been blundering somewhere and until it can be more definitely located the blame will rest upon the fountain head of authority in Washington. Monday it was officially announced that the troops had left Key West. Tuesday it was officially announced that the expedition had just put out from Tampa. There is a deal of consolation for excitable folk in the thought that there is as yet no denial that there is to be an expedition.

The city council has elected Mr. George F. Felts to membership on the Fort Wayne board of school trustees to succeed Mr. Samuel M. Foster. Of Mr. Felts' fitness and capacity for the position there will be no question. He is splendidly equipped for the duties and will bring to the place a training in school work and knowledge of the needs of the public schools that will make him an exceedingly valuable official. Mr. Felts has pledged himself to the purpose that interest on the school fund shall be devoted to public educational uses, and this no doubt means the carrying along of the plan conceived by Mr. Foster to make the school funds earn a public library building for Fort Wayne. No one will have any misgivings that the public schools of Fort Wayne have not been continued in capable hands by the election of Mr. Felts. Mr. Foster retires with the record of having made a notably able and satisfactory official. He was elected on a platform of his own creation demanding radical reforms in the custodianship of the school funds. That platform he has carried out with fidelity. He has, as he promised, made the funds earn interest for the public and not for private concerns. He has been a diligent and conscientious trustee, and has given to his work the finish of a cultivated intelligence. Mr. Foster's record on the school board was such as, under ordinary conditions, to have made folly of any attempt to defeat him. In his official career there were but one or two acts that elicited criticism and neither had any important bearing as an issue in the contest. Mr. Foster was a gold-democrat and did not support the regular democratic organization in the last national campaign. To that fact solely may be ascribed his failure of re-election. However much it may be regretted, there is no evading recognizance of the fact that the bitterness engendered in the last campaign is still intense and that no man who left the democratic party then can expect election to office by democratic votes now. Time will come when the embittered differences of that last campaign will be overlooked, if not forgotten, but that time has not yet come.

You are not so Warm

As you will be during the next few weeks.

Why not be one of the comfortable people who wear our cool clothes? Prices are at zero mark while the quality is 90 in the shade.

For instance, the summer suits we are selling at $7.50, ought to sell for $10. The $12 suits ought to bring $15, and so on.

The coolest suit you can buy is a serge—the fast color kind we are selling at $10 and $12 the suit. Look and wear like custom-made—fit like custom-made.

Crash suits are always cool. Prices are ridiculous. A good crash suit for $3, a better for $4, a better still for $5. Don't put off buying until sweltering weather; come now.

FELTS FOR TRUSTEE

He Won the Battle on the First Ballot.

Two Republicans Voted for Mr. Foster—The Salaries of the City Officers Fixed—New Ordinances.

There was a large attendance at the council meeting last evening, and more interest was manifested in the proceedings by citizens generally than by the city dads. The corridors and lobby of the council were the scene of much discussion and button-holing before the council met, the big interest being, of course, in the contest for school trustee to succeed S. M. Foster. The friends of Mr. Felts were confident and only smiled when asked how the contest would end, and it was generally conceded that he would win on the first ballot, and he did.

When the council was called to order Councilman Scheid moved the suspension of the rules and the election of a school trustee be proceeded with. The motion carried. The names of the candidates were not announced by councilmen, but were read from slips by City Clerk Monning. They were: George F. Felts, Otto Herbst, Allen Hamilton and S. M. Foster. A ballot was taken without any wait and the entire matter was settled in a few minutes, Mr. Felts winning on the first ballot by the following vote: Felts, 12; Herbst, 4; Hamilton, 2; Foster, 2. Mr. Felts was declared elected and he came forward and thanked the councilmen for the honor conferred on him. His term commences immediately.

Several appropriation ordinances were recommended by Comptroller Borghoff, one of them being for $2,160 with which it is proposed to employ four new patrolmen and two detectives. These ordinances were referred to the finance committee.

Councilman Wheelock introduced a resolution providing that the board of works proceed immediately to lay a conduit system before the paving of Calhoun street, so that in case the city purchases an electric light plant it will not be necessary to disturb the pavement on the street. Referred to committee on street lights.

Councilman Wheelock also introduced the following resolution:

Whereas, It is desirable that the wage workers of Fort Wayne should receive all the benefits which may come to them by reason of having rapid transportation over our streets and

Whereas, There are now many people living in the extreme suburbs of the city for the reason that as renters they cannot afford to pay the higher cost of living in the center of town and of owners of property they must seek homes in such parts of the city as they can afford to buy, and

Whereas, Such suburban residences is more healthful than in crowded tenements and should therefore be encouraged, and

Whereas, Such suburban residences takes many wage-workers far from their work and during bad weather, in going to and from their work, subjects them to exposures which are dangerous to their health, this being especially true of young women and girls, and

Whereas, Such increased traffic as would result from the reduction in cost of car fare would, we believe, more than repay the company the difference in the present cost and the reduced price; be it; therefore,

Resolved, That a public need exists for a reduction in street car fare between the hours of 6 a. m. and 7:30 a. m.; 12:15 p. m. and 1:15 p. m., and 5:30 p. m. to 6:30 p. m to (3) cents; and be it further

Resolved, That his honor, the mayor, be and is hereby requested to appoint a committee of (5) five members from this body, whose duty it shall be to wait upon the superintendent or other officers of the Fort Wayne Consolidated Street Railway company, and urge upon them the value of our reasonable request and persuade them, if possible, to grant such request.

Unanimously adopted and the mayor appointed the following committee to wait on the officers of the Consolidated Street Railway company:

Wheelock, Scheid, Haag, Hench and Poirson.

The following ordinances were read a first and second time and referred to the committee on rules, regulations and ordinances: Compelling plumbers to take out a license and give bond; compelling citizens to get a permit when desiring to make excavations in streets and alleys; compelling the destruction of weeds, which are considered by the board of health dangerous to the community.

An ordinance fixing the salaries of city officers and employes was referred to the committee of the whole. The council went into executive session and it was midnight when the following salaries were agreed to:

Mayor, $3,500 per annum.
Comptroller, $2,000 per annum.
City attorney, $1,750 per annum.
City clerk, $1,500 per annum.
City civil engineer, $2,000 per annum.
Assistant city civil engineer, $75 per month.
Stenographer, $40 per month.
Superintendent of street repairs, $75 per month.
Foreman of street repairs, $60 per month.
Janitor of the city hall, $50 per month.
Assistant janitor of the city hall—$35.00 per month.
Custodian of parks—$70.00 per month.
Marketmaster—$25 per month.
City Poundmaster—$10.00 per month.
City Weighmaster—$55.00 per month.
Superintendent of Police—$1,200 per annum.
Captain of Police—$900.00 per annum.
Lieutenant of Police—$810.00 per annum.
Sergeants of Police—$800.00 per annum.
Patrolmen—$60.00 per month.
Patrol drivers $50.00 per month.
Station clerks $50.00 per month.
Electrician $35.00 per month.
Humane officer $35.00 per month.
Chief of the fire force $1,200 per annum.
Engineers $75.00 per month.
Captains $65.00 per month.
Electrician $50.00 per month.
Firemen, "Class A," $60.00 per month.
Firemen, "Class B," $55.00 per month.
Firemen, "Class C," $50.00 per month.
The telephone attendant at engine house No. 1, $40.00 per month.
Three special sanitary policemen, $45.00 per month each.
Councilmen $150 00.

Councilman Hench's resolution compelling the use of the union label on printing was amended to mean that all printing done by union printers should bear the label and instructed the city officials to use it on all work not given in competition.

John Dreibelbiss and others presented a remonstrance against the annexation of certain property until street car facilities had been provided. Referred to the committee of the whole.

Property owners petitioned for the extension of gas mains on Sherman street.

A petition for an electric light at the corner of Force and Buchanan streets was referred to the committee on street lights.

Property owners on Jackson street petitioned for the extension of water mains on that thoroughfare. Referred to waterworks committee.

A Short-Sighted Policy.

(From Indianapolis Sentinel, June 11.)

We beg to call the attention of the readers of The Sentinel to the following bit of choice express literature which we clip from the Fort Wayne Journal of Friday:

United States Express Co.,
Sixth Division,
CINCINNATI, O., May 16, 1898.

Agent ——:

DEAR SIR:—It has been unanimously agreed by all of the express companies that permission may be given any telephone company to place its instruments and connections in your office, provided no charge is made the express company therefor, and that at common points, where a telephone company proposes to furnish all express companies represented at your place, the same service without any charge.

If the telephone company will not furnish free service to all companies at common points, then you must not permit its instruments or connections placed in your office until such time as they shall agree to furnish free service to all of the companies.

It was also agreed by all of the express companies that when existing telephone contracts which require us to pay a stated rental for telephone service shall expire, the telephone company concerned shall be required to remove its instruments and connections unless they will agree to furnish you with service free.

When your present telephone contract expires you will therefore not renew it, excepting as above.

Yours truly,
GENERAL SUPERINTENDENT.

This is richness served with sauce. The nub of the whole thing is simply this. In every city of the state—more than a hundred in all—where there is competition in telephone service, the independent home companies have literally wiped the broad and smiling earth with the Bell monopoly, which latter, in desperation, and in the hope of destroying the independent companies, has been for the past two years, and still is, furnishing telephone service in many of the towns free of charge. The independent companies, of course, do not do this and their patrons do not expect them to do it, well knowing that if the monopoly could drive them out in this way the old rates and even higher ones would soon be in force. But the express companies, it seems, have taken up the fight for the Bell monopoly and propose to exclude all independent telephones from their offices, because it is well known that the independent companies will not give service for nothing.

The people of the state should accept the challenge just as it has been tendered. We advise our readers to turn their field glasses on Fort Wayne and watch the outcome there. We miss our guess if the business men of that city do not convince the express companies in short order that they have made a great mistake. We feel assured that the latter will not persist in inviting public displeasure by identifying themselves with the obnoxious telephone monopoly. They certainly can't afford to pursue such a short-sighted policy, which can have no other effect than to injure themselves.

"Blackbeard."

Mr. Frank R. Stockton, in his serial, "The Buccaneers of Our Coast," in the May St. Nicholas, says: About this time one of the most famous of sea-robbers was harassing the Atlantic coast of North America, and from New England to the West Indies he was known as the great pirate "Blackbeard." This man, whose real name was Teach, was a terrible fellow in appearance as well as acts. He wore a long, heavy black beard, which it was his fancy to separate into tails, each one tied with a colored ribbon, and often tucked behind his ears. Some of the writers of that day declared that the sight of this beard would create more terror in any port of the American seaboard than would the sudden appearance of a fiery comet. Across his brawny breast he carried a sort of sling, in which hung not less than three pairs of pistols in leathern holsters, and these, in addition to his cutlass and a knife or two in his belt, made him a most formidable-looking fellow. In the early part of the eighteenth century Blackbeard made his headquarters in one of the inlets on the North Carolina coast, and there he ruled as absolute king, for the settlers in the vicinity seemed to be as anxious to oblige him as the captains of the merchantmen were anxious to keep out of his way.

Navy Desertions in Time of Peace.

From "On a Man-of-War": Desertion from the navy at times seems almost inexplicable and can be accounted for only on the ground of fascination. Asked in regard to it, a captain of much experience once said: "I really believe that if you freighted a ship for heaven, and were obliged to touch in at hell for wood and water, half the boat's crew would desert."

BICOLA PILLS

Prevent Waste; Fortify Body and Mind; Feed the Nerves; Make Flesh and Blood.

The Ideal Tonic For Men and Women.

One of the best-known hotel proprietors in the United States is Mr. Henry W. Lawrence, proprietor of the Bates House and Spencer House, at Indianapolis, Indiana. When a man like Mr. Lawrence tells the people everywhere to take Bicola Pills, the great blood and nerve remedy to regain their health and strength; when he tells the weak, tired and nervous that this great remedy will make them strong and well, it means something coming from a man like Mr. Lawrence.

He writes that Bicola Pills gave him immediate relief from a severe attack of rheumatism and general nervousness, and he earnestly advises all sufferers from nervous and blood troubles to use Bicola Pills.

Mrs. Clara Ehrenhart, Secretary of the Board of Education at Lewistown, Ill., writes:

"I have found Bicola Pills to be a cure for dizziness and nervousness, and heartily recommend them to any one afflicted with nervous trouble. They are unsurpassed for sleeplessness. No need lying awake at night if you take Bicola Pills. They have given me most wonderful relief."

The Lorners of Philadelphia make Bicola Pills.

Round The World in 33 Days.

Jules Verne's hero, if he could be clothed in flesh, would gasp at the news that it will soon be possible to girdle the earth three times within his own marvelous limit of eighty days for one circuit. Even Prince Khilkoff, with all the responsibility of office as Russian Minister of Communications, has committed himself to the statement that, when the Siberian railway is completed, the journey round the world can be made in thirty-three days. This estimate is based on actual and ordinary rates of traveling.

That this time could be materially reduced by express trains and swift steamers is very obvious. Allowing for all loss of time due to gradients and imperfect roads, it is estimated that it will soon be possible to travel from "Liverpool street to Charing Cross, via Yokohama," in 27 days 17 hours. This is the time table, prepared by an expert: London to Moscow, 36 hours; Moscow to Vladivostock, 119.1 hours; Vladivostock to San Francisco, 270 hours; San Francisco to New York, 73.1 hours; New York to Plymouth, 133.8 hours; Plymouth to London, 3.2 hours.

First Steamship to Cross the Atlantic.

It was under the American flag that the first steamship crossed the Atlantic. The Savannah, built in New York by Francis Picket, was a vessel of 300 tons burden, and was still in the stocks when Wm. Scarborough, a wealthy merchant of Savannah, Ga., bought her. He advertised extensively for passengers and freight to start the trans-Atlantic voyage. There were no responses; people everywhere were enthusiastic, but were not confident enough to risk either life or property in such an undertaking. On the 20th of May, 1819, the Savannah started; twenty-two days later she ran into the river Mersey and came to anchor off Liverpool, "with not a screw, bolt or rope-yarn parted."

Asthma.

How it is Treated and Cured by the New Method.

"Asthma is usually known as paroxysms of difficult breathing, lasting from a few hours to several days, coming on at intervals, to be followed by intermission, during which the patient breathes with comparative ease.

The attack returns again at regular intervals, or is provoked by exposure to cold, damp air, strong effluvia, or even mental emotions. During the attack the respiration is labored, with wheezing, frequent cough and threatening suffocation.

"Treatment and Cure.—There is probably no disease of the respiratory organs which submits so quickly to "HYOMEI" and the Australian Dry-Air Treatment as Asthma, a few moments' use of the Inhaler giving immediate relief in the most severe cases, while its daily use invariably cures. In chronic cases a few drops of "HYOMEI" placed on a piece of clean flannel and pinned to the night robe will prevent an attack and insure a good night's rest to the patient, curing the disease while he sleeps.

"HYOMEI"

CURES BY INHALATION

and in such diseases as Catarrh, Catarrhal Deafness and Bronchitis always gives immediate relief and a permanent cure. Coughs and Colds cannot exist where it is used. To take "HYOMEI" requires no skill on the part of the patient; there is no wasting for hours at an office, no car fare to be paid, or monthly payments to make. You can treat yourself in your home, at your work, in church, or at the theatre.

Every Bottle is Guaranteed to Relieve or money refunded.

SHOP AND RAIL.

The Pennsylvania Shopmen Get Out a Picnic Program.

William Donnell, Jr., Is Injured at Baltimore, Md.—Accidents and Incidents of the Rail.

The committee on entertainment has issued the program for the annual picnic of the Pennsylvania shopmen next Saturday. It includes various special features, such as sleight of hand by Prof. Chidler, ventriloquism by Prof. Helms, wing and buck dancing by Hezekiah and Jeremiah and fortune telling by Palmist Zilda. There will be the usual sports on land and water and a musical program by the Wayne Post band. The excursion train will run in three sections, the first leaving this city at 7:15 and the last at 7:45 o'clock. Returning, the trains will leave Rome City at 7:15, 7:30 and 7:45 in the evening.

MASTER CAR BUILDERS.

SARATOGA, N. Y., June 15.—The Master Car Builders' association began its thirty-second annual session here today. The convention opened with a prayer by Bishop John H. Newman, followed by an address by President S. A. Crone, of New York.

WILLIAM DONNELL, JR., HURT.

William Donnell, sr., of the electric works, yesterday received a letter and a newspaper clipping from Baltimore, Md., giving an account of a serious accident which befel his son, William, a few days ago. The young man is an electrician in the employ of the Edison Electric Light company and was injured while assisting in unloading a dynamo at the company's plant in Baltimore. The machinery slipped from the wagon, crushing Donnell's right leg and arm. The letter states that the injured man is getting along first rate, considering the extent of his injuries, and has been removed from the hospital to his home.

REVISION OF TRAIN CREWS.

A general revision of train crews is now in progress on the Nickel Plate. The changes so far include the following assignments: J. Friend with Conductor Webb, T. J. Reardon with Conductor R. C. Charles, J. W. Bowdine with Conductor T. H. Seaney, G. D. Snyder with Conductor C. LaPoint, H. D. Beam with Conductor A. Anderson and J. W. Bushey with Conductor H. Overholser.

General and Local Gossip.

Fireman George Wall, of the Pittsburg, is sick and off duty.

Next week A. G. Porter lodge, No 141, B. of L. F., will nominate officers.

The electric works sent an eighty-light dynamo to Greenville, Ohio, yesterday.

F. J. Buch has reported for duty at the Pittsburg copper shop. He had been sick.

Yesterday the Bass works sent a large boiler to the Iroquois Canning company, Onarga, Ill.

G. M. Johnson and John Ryan, of the Pittsburg copper shop, are off duty on account of sickness.

Charles Beney, machinist at the Bass works, has gone to Mt. Vernon, Ohio, to visit his mother.

M. M. Miller, of Decatur, Ind., was in the city yesterday on business with the Electric corporation.

The Pennsylvania pay car comes here tomorrow, and the Wabash pay car a week from tomorrow.

J. A. Wise, who had a hand hurt a week or two ago, resumed work at the Pittsburg tank shop this morning.

After an illness of four weeks, Casper Hartong, the painter, has returned to his duties in the Pittsburg shops.

Joseph Golden, fireman on the Grand Rapids and Indiana road, will be married this evening at Richmond, Ind.

Dr. E. F. Wagner is attending a meeting of medical examiners at Cleveland and will not return home until Friday morning.

General Superintendent Charles Watts, of the Pennsylvania company, passed through the city this morning, en route to Chicago.

James V. Coffman is laid up with an injured foot. The accident occurred several days ago, but the wounded member did not become completely crippled until yesterday.

Nickel Plate Brakeman D. Kehn is visiting friends in Huntington.

Lincoln Johnson, of the electric works, has moved into his new home on Baker street.

Mrs. Frank Maines, wife of the fireman on the Lake Erie and Western road, is lying ill at her home on the north side.

A. C. Parish, of the Wabash freight house, has returned from Northern Indiana, where he visited relatives a few days.

William Biroly, who had a foot burned a week ago, has recovered and is working again in the Pittsburg blacksmith shop.

D. Frank Crawford, assistant motive power superintendent of the Pennsylvania, arrived home from the east this morning in private car 503.

Daniel Bernheimer, watchman at the Broadway and Pittsburg gates, has gone to Antwerp, Ohio, to attend the funeral of his brother-in-law.

Nickel Plate Engineer Bert Baughman has returned from Pennsylvania, where he visited relatives a few day. He resumed work on the road this morning.

Brakeman W. C. Reffelt, of the Nickel Plate, is working again after a lay off for the purpose of entertaining his sister from Chicago, who has been visiting him.

R. F. Douglass, of the Wabash ticket office, has gone to Illinois to join his wife, who has been visiting in that state for some time. They will return home tomorrow.

All passenger equipment of the New York Central, the Lake Shore, the Michigan Central and Nickel Plate lines is to be repainted a uniform olive color with gold striping.

Dick Vachon, for several years employed at the Bass' machine shop, has resigned to enter the employ of Moran, the ice man. Mr. Vachon will have charge of a wagon.

Passenger engine 100 came out of the Stony Island shops yesterday, after a general overhauling, and will go into service on the eastern division as soon as she has been tested.

A company has been formed which proposes to build a new road from Kansas City to Galveston, Texas, 575 miles, to be known as the Gulf, Chickasaw and Kansas City road.

The Fitchburg road, in connection with the West Shore and the Nickel Plate, has put on a train which makes the run from Boston to Chicago four hours quicker than any former schedule.

President Frank Thomson, of the Pennsylvania, who is now making his annual inspection of the lines which go to make up that great system, will arrive in this city Friday. Today and tomorrow he will inspect the southwestern system.

George Potter, master mechanic of the New York Central, who lost his position in the recent reorganization of the departments on the road, has been in the employ of the New York Central forty-five years, and twenty-three years its master mechanic.

John Potter, sr., the veteran cabinetmaker at the Pittsburg shops, who has been a sufferer from dropsy for the past three or four months, is now getting better and will be able to resume work before long if the improvement continues. Mr. Potter resides at 131 Sherman street.

Last evening R. Breese returned to the city after an absence of eight months, and tomorrow he will resume his old position in the Pittsburg shops. During his absence from town Mr. Breese was in the surveying department of the United States and spent most of the time in South America.

H. A. Engmann, the organ builder, has secured the contract for building a new pipe organ for the St. Mary's Catholic church at Decatur, Ind., the price being upwards of $3,000 and the time limit December 1. Professor Engmann has built up a profitable trade in the pipe organ building line.

The National Association of Railway Postal Clerks is holding its annual convention this week at ———, beginning today. The ——— were welcomed by Mayor ——— G. L. Miller, who ——— the postal clerks on behalf ——— citizens. C. L. Schaffer, president of the association, responded. One of the important matters to be considered is the organization of a mail clerks' mutual accident association.

Charles M. Pratt has accepted the position of chairman of the passenger committee of the southwestern lines and will take charge next Monday. Mr. Pratt has been in railroad service since 1887, and was for some years joint agent of the western lines in the division handling of immigrant business.

The citizens of St. Thomas, Ontario, are working with the view of getting the Wabash to locate locomotive and car repair shops in that city. A committee has already waited upon the railway officials and presented their petition. St. Thomas is the middle division terminal of the Buffalo branch of the Wabash road. It is the home of Mr. and Mrs. W. W. Olmstead, former citizens of Fort Wayne, who went there to reside last winter. Mr. Olmstead holds an important position in the motive power department of the Wabash.

THE NORTHWESTERN RAILWAY IS PATRIOTIC.

CHICAGO, June 15.—The officers of the Northwestern railway have decided to show their patriotism and to inspire their passengers by decorating the company's buildings everywhere along the three divisions of the road. The first flags were raised on the Milwaukee division. Sixteen beautiful national emblems are in place today between Chicago and Milwaukee and the breeze is unfurling Old Glory and making the stations, with their towers, appear more like small fortresses than peaceful way depots. It was stated today that forty of the principal places in Illinois had been supplied so far and that as fast as possible the railway officials would try to show their patriotic sentiments to the smaller communities. In every village or town having 300 or more inhabitants there will be a "flag station." There are about a hundred such stations on the Milwaukee, Galena and Wisconsin divisions. On lines in Iowa, Wisconsin and Minnesota the stars and stripes will be placed as well, and this will necessitate the purchase of a large number of flags for the 7,000 miles of road.

ONLY ONE HIT.

Bates Lets the Hoosiers Down With a Two-Bagger.

The "Old Soldiers" Won Another Game From Fort Wayne by Outbatting Them—Notes.

Fort Wayne lost the second game to the "Old Soldiers" yesterday because of the old complaint, inability to hit the ball. Bates and Brodie were opposing twirlers and "Beauty" pitched a game which should be a winner ninety-nine times in a hundred. But the Fort Waynes couldn't solve Mr. Bates' curves, only one hit being made—that a three-bagger by O'Meara in the first inning, after Hickey had reached first on balls. The fielding of the team was gilt-edged, but when the players don't bat there is no chance to win, no matter how fast the team may field nor how good the pitcher may twirl. The last game with the Daytons will be played today and then the Hoosiers will move over to meet their "hoodoos," the Governors. Score:

MANSFIELD, 4; SPRINGFIELD, 12.

SPRINGFIELD, Ohio, June 15.—Manager Whistler, of the Springfield team, says it is either a salary reduction or the whole league will be forced to quit. There is but little kicking in the Springfield club over the proposition. Mansfielders in a body, however, object. Manager Howard conferred with them last night. NOTES.

Balden will probably be sent back to Cleveland.

In the eleventh inning of the game yesterday the Youngstown's commenced horse-play and Umpire Colgan awarded the game to Grand Rapids 9 to 0.

Al Fisher didn't play with the team yesterday. Fisher always did have a great head on him and it is probable he waited until today before reporting so that he would get in too late to have his salary cut.

Musser, former second baseman and captain of Youngstown and now deposed, has gone to work. He is a car conductor in Youngstown and standfastly refuses all overtures from Law Whistler to get him to play in Springfield.

The Randalls defeated the Waynes yesterday, 13 to 9, at Lakeside park. The game was a much better one than that of Sunday, but how the Waynes ever believed they had a chance with Frank Rosin Franco in the points against them is a mystery.

Eddie Mazena has written Manager Law Whistler that he will retire from the diamond. His father died a few days ago and left to his care an aged mother, who, it is understood, is possessed of considerable wealth.

The schedule calls for two games at Dayton today and should Fort Wayne win them both the team will have a fine start up the ladder. Severs will pitch one of the two games. He has been twirling for an Ohio team and tells that he is now in better shape than ever before. The other game will probably be pitched by George Reiman, as Herr is on the bench and may never again pitch for Fort Wayne.

The reduction of salaries in the Inter-State league commences today and while a number of players threaten to rebel it is believed their better judgment will prevail and they will stand the cut. The Mansfield players are the strongest objectors, but inasmuch as they cannot sign with any other club they will probably weaken. The reduction was a necessary measure and the players should be the first to acknowledge this fact.
